If the emigrants do not arrive by the train by which they are due, the constable or peon deputed to meet them should wait at the station until the arrival of the next train in case the emigrants should have missed the train by which it was intended that they would come. The Magistrate or other authorised officer, as the case may be, after satisfying himself as to the identity of all the emigrants named in the chalan, by taking their thumb impressions and comparing the same with those shown on the chalan, shall sign the chalan and return it by post to the Embarkation Agent at Goalundo or Dhubri. The costs incurred by District Magistrates in connection with the repatriation of emigrants shall be recovered from the Embarkation Agent at Goalundo or Dhubri, as the case may be.

(*h*) When the railway station nearest to the native district of an emigrant is not in that district, the Magistrate of the district in which such station is situated, shall cause the emigrant to be sent to the Magistrate of the district concerned, who will comply with the procedure laid down in the last clause of the preceding rule.

(*i*) On the receipt of the chalans from the District Magistrates, the Embarkation Agent at Goalundo shall inform the Deputy Commissioner of the Labour District from which the emigrants were sent to Goalundo of their safe repatriation, and at the same time forward to him a memorandum showing the expenditure incurred by him on that account in order that steps may be taken for the recovery of the amount from the employer or employers concerned.

(*j*) The amount so claimed shall consist of the railway fare and diet-money of the emigrants, cost of telegraphic messages to District Magistrates, and, in the case of emigrants despatched under escort, the railway fare and diet-money of the peons, as well as their pay at the rate of four annas *per diem* for the number of days during which they may be absent from head-quarters, and of costs duly incurred by District Magistrates in sending emigrants home: it shall also include any other charges which the Embarkation Agent may incur in this connection, such as the cost of the diet of emigrants and of providing them with temporary accommodation during their stay at Goalundo. The sum, when recovered

will be deposited in the local Treasury by the Embarkation Agent to the credit of the Inland Labour Transport Fund.

(*k*) In the case of emigrants whose labour contracts are determined on their arrival at Goalundo while *en route* to the labour districts, the Embarkation Agent shall arrange for their repatriation, observing, as far as practicable, the same procedure as that laid down in rules (*b*) to (*f*) for the repatriation of emigrants returned from the labour districts.

(*l*) The cost of repatriation, which may include all or part of the items of expenditure mentioned in rule (*j*), shall be recovered in such cases from the garden-sardar or other person in charge of the emigrants, or, in default, from the employers.

N.B.—The pay of peons should, on recovery, be placed to the credit of the Inland Labour Transport Fund in the local treasury.

(*m*) When labourers are released from their contracts at any place intervening between the districts of registration and the ports of embarkation, the Magistrate shall pass orders for their repatriation, and cause the procedure laid down in rules (*b*) to (*f*) to be followed as closely as practicable.

(*n*) The charges incurred by a Magistrate in the repatriation of emigrants and their dependents, if any, shall be paid by him in the first instance from his contingent advance. The pay of constables or permanent peons employed as escorts will not be advanced. It will, however, be recovered (calculated for the number of days during which they may be absent from head-quarters) along with the other charges incurred by the Magistrate, from the garden-sardar or person in charge of the emigrants, or, in default, from the employer of such garden-sardar.

situated with the Red light on the breakwater bearing N. 61° W., distant 2¼ cables, and Signal hill flagstaff S. 51° W.

Approximate position, lat. 32° 55¼′ S., long. 151° 48½′ E.

There are depths of from 31 to 45 feet on the eastern side of this rock, and from 21 to 25 feet on the other sides, but it is not connected with Big Ben, as there is a depth of 33 feet between them.

Jackson, H.M.S. *Rosario*, that a sounding of 2 fathoms, reduced to low-water springs, was obtained from his vessel by one of the leadsmen when approaching Chapu roads in a position from which the northern extremity of Holley island bore N. 85° E., distant 8¼ cables, and the 518-foot hill N. 19° E.

Approximate position lat. 30° 34½′ N., long. 121° 7′ E.

NOTE.—This shoal must be considered doubtful, as it depends on one cast of the lead only, but there is no improbability in shoal water existing hereabouts.

Farquhar, H.M.S. *Vestal*, that when his vessel was steering to the north-eastward off the north coast of Formosa, about 10 miles N. 65° W. from Foki Kaku, a sounding of 11 fathoms, rocky bottom, was obtained in approximately lat. 25° 22¾′ N., long. 121° 21½′ E., at the same time breakers were observed at a distance of about 1½ or 2 miles to the south-eastward.

Thick weather prevailed at the time, so that no bearings were obtained, and the position, depending on the reckoning, must be considered doubtful.

It must also be considered doubtful whether what was seen was a breaker over a danger, or merely an overfall caused by a tide rip over part of the foul ground.

Lat. 33° 42′ *20″* South.
Long. 137° 15′ *15″* East.

Mariners navigating Spencer Gulf north of Tipara Shoal are cautioned against making too free with the western shore, as between Franklin Harbour and Point Lowly the shoa water extends in several places from one and-a-half (1½) miles to four (4) miles from the shore line, which in many places is very low and often distorted by mirage.

Vessels beating up or down the Gulf against strong head winds are therefore cautioned to keep about the middle of the Gulf, towards the Middle Bank Lightship, which may be passed close to. They may also anchor anywhere north of Tipara Shoal and await a slant of wind.

position of this bar is not known, but the depths over its southern part are from 17 to 18 feet, and over the northern part from 20 to 22 feet.

The wharves in the harbour are difficult of access on account of the cross currents, and silting has reduced the depth alongside them all, so that now only 14 feet can be relied on.

Vessels are not allowed to navigate the Klang river, and they cannot use Lúmut strait.

Approximate position, lat. 3° 0′ N., long. 101° 23′ E.

Marudu bay—Non-existence of rock.

No. 100 (third publication).—The British Admiralty has given notice (No. 133 of 1904) that he has made a very careful search for the rock, marked doubtful on the Charts and shown at a distance of 5 miles N. 69° E. from the eastern point of Melow island in the approach to Kudat bay. The ship was anchored in 13 fathoms in the supposed position, and soundings of not less than 12 fathoms were obtained for a distance of one mile around her in all directions without finding any indication of a shoal, nor was any discoloured water observed from the masthead. The fishermen and local authorities at Kudat, who are intimately acquainted with Marudu bay, know nothing of the existence of any danger hereabouts.

The abovementioned rock, which was not seen by H.M.S. *Egeria* in 1880, was inserted on the Charts from old documents, which probably were not very reliable; it has therefore now been expunged from the Admiralty publications.

The mean pressure, temperature, etc., are deduced from the traces of the Barograph and Thermograph, and from eye-observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. Rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

D. B. HORN,
Secy. to the Govt. of Bengal.

Revised Rules for the Calcutta Canals and Tolly's Nala.

The rules shall apply to the following navigable channels which are included under the designation "Calcutta Canals and Tolly's Nala" :—

I.—The Circular Canal comprising the still-water canal between the Dhappa and Chitpur Locks and the New Cut Canal from Ultadingi to Dhappa Lock, together with its junction with the river Hooghly and the Orange Soorah at Dhappa.

II.—The Central Lake Channel from its junction with the Circular Canal at the Dhappa Lock to its junction with the Biddiadharee at Bamunghatta.

III.—The Nowbhanga khal, extending northwards for a mile from its junction with the Central Lake Channel below the Dhappa Lock.

IV.—The Soorah from its junction with the Central Lake Channel below the Dhappa Lock and extending to the fish market situated adjacent to, and to the west of, the Dhappa Inspector's residence.

V.—Tolly's Nala extending from a line drawn across the Nala 25 feet west of the Hastings Bridge at Kidderpore to the Biddiadharee river at Samookpota.

1. Every vessel on entering the Calcutta Canals or Tolly's Nala shall be liable to measurement for the purpose of ascertaining the tolls payable; in case of any reasonable doubt arising, the persons appointed by the Lieutenant-Governor to collect tolls and officers to whom such persons are subordinate shall have authority to again measure a vessel notwithstanding that it was measured on entering the canals.

2. Vessels for the purposes of the determination of tonnage shall be divided into two classes as below:—

Class I.—To include all vessels of the usual native types of build.

Class II.—To include all steamers, flats and barges, and other square built boats.

The net tonnage of every vessel, whether laden or empty, shall, for the purposes of Act V (B.C.) of 1864 and of these rules, be determined by the following measurements:—

Class I.—

A.—The product of one quarter the length of the vessel from stem to stern, measured along the water-line, multiplied by the interior greatest breadth of the vessel multiplied by the depth from the water-line to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which toll shall be levied.

B.—The measurement of the length is to be made in feet, rejecting inches; the measurement of the breadth and depth is to be made in feet and quarters of a foot, rejecting any remainder of less than a quarter of a foot.

C.—The maundage on which the amount of toll is calculated shall be reckoned to the nearest integral multiple of 12½ maunds, any remainder of less than 12½ maunds being rejected. In the case of boats exceeding 500 maunds by measurement, the maundage shall be reckoned to the nearest integral multiple of 50 maunds rejecting any remainder of less than 50 maunds.

D.—Provided that in the case of vessels which enter the canals at Chitpore, Kidderpore and Chetla empty, for the purpose of loading therein, the depth shall be measured from the line of usual immersion when fully loaded as visible on the outside of the vessel to the bottom (interior) of the vessel, and not from the line of actual immersion at the time of measurement.

Class II.—

For vessels of Class II the number of maunds obtained by the system of measurement prescribed for vessels of Class I, shall be increased by one-half. For vessels of this class above 5,000 maunds measurement the maundage shall be reckoned to the nearest integral multiple of 500 maunds rejecting any remainder of less than 500 maunds. In the case of steamers, the maundage determined as above shall be reduced by one-third as an allowance for engine space.

For vessels of Class II which are furnished with reliable way-bills the gross maundage of cargo shown by the way-bills may at the option of the employer of the vessel be taken as the maundage on which toll will be charged. Provided that firms or individuals who wish to make use of this rule, must be approved by the Superintending Engineer of the South-Western Circle, and that such approval may be withdrawn for any just cause.

3. Every vessel entering the canals shall be furnished with a ticket on which the name of the serang, manjee or other person in charge of the vessel, the date of entry, the maundage of the vessel, the cargo it contains, the amount of toll charged, and the number of days for which the ticket remains current, shall be entered.

4. All tolls are payable on demand and shall be paid at the toll station before a vessel is permitted to proceed. Provided that the Collector of Tolls appointed under section VIII of the Act may at his discretion permit vessels belonging to individuals or firms of recognised standing to proceed without pre-payment, on an undertaking that the bills for tollage due shall be liquidated monthly on presentation.

5. The ticket must be kept on board the vessel and must be produced for inspection when demanded by any person authorised to collect tolls, or by any officer to whom such person is subordinate. If on demand the ticket is not produced, such person or officer shall assess the tollage as provided in rule 2 and shall require payment of toll, and unless and until the toll is paid, or the original ticket or a duplicate is produced as evidence that toll has already been paid, the vessel shall be liable to seizure and detention under the provisions of section IX of the Act.

6. Duplicates of lost tickets, of which the numbers and dates can be satisfactorily established, will be granted by the Collector of Tolls on payment of a sum of one rupee. Provided that for tickets on which the total tollage is less than four rupees, the fee to be charged for a duplicate shall be one quarter of the total tollage.

7. A vessel which has been detained under these rules or under section IX of the Act, may not be removed from the canal without the order of the Collector of Tolls until the toll due has been paid. During such detention the manjee, owner, or agent must make arrangements for the safety of the vessel and cargo.

8. All vessels, whether the property of Government or of private owners, are liable for toll except those exempted by the provisions of Bengal Government Notification No. 261, dated the 21st July 1890.

9. Vessels may be hauled up for repairs on the banks of the canals with the previous written permission of the Supervisor appointed by the Lieutenant-Governor, under section

XIII. A rent calculated at one-sixth the rate of ordinary demurrage will be charged for the time the vessel occupies the bank.

10. At places where mooring posts have been provided by the Supervisor, vessels desiring to moor shall be made fast in single line along the banks to such posts in such manner as the Supervisor may direct and shall not be moored in any other manner.

11. The Supervisor may by written notice to be posted at the Toll Offices, prohibit the dropping of anchors or the putting up of bamboos or *luggees* in any specified part of the Canals or on the banks.

12. Boats shall be allowed to make fast in single line along the canal banks in such manner as may be directed by the Supervisor, and no boat shall be made fast or be placed outside of boats so secured. No boat or raft shall be placed in such a position as to endanger the safety, or obstruct the passage, of other boats.

13. Boats passing through the canals shall keep in separate lines, empty boats keeping close to the bank and those that are laden in the centre.

14. In portions of the canals where only one towing path exists, vessels shall moor on the side opposite to the towing path, and the towing path side shall always be kept clear.

15. Iron built cargo boats, with outside angle irons projecting beyond the wooden fenders, will not be allowed to enter the locks unless permanent fenders are fixed over the edges of the angle iron so as to prevent them from causing damage to the lock.

16. No fire, or open or unprotected light of any description, shall be used on boats containing petroleum, jute, hay or straw while in the Calcutta Canals; and no fire or open or unprotected light (except in the case of steamers, the galley and engine-room fires and the electric light) shall be used on any vessel while in a lock basin.

17. No person shall wilfully or negligently allow a vessel to sink in the canals.

18. In every case of a sunken vessel whether due to negligence or otherwise, the Supervisor and his subordinates shall offer every assistance in removing the same.

If three days after the occurrence of a wreck, it is seen that prompt measures are not being taken by the owner to remove the sunken vessel from the line of navigation, the Supervisor and his subordinates shall make their own arrangements for the removal of the same at the expense of the owner.

19. When a sunken vessel has been recovered, the Supervisor shall cause notices to be posted at the locks, toll-offices, or other prominent places, calling on those concerned to pay to the Collector of Tolls all toll or demurrage which may be due, as well as the expenses incurred in the recovery of the vessel and cargo. Should the sum due be not paid within fifteen days of the date of notice, the boat and its furniture, or so much of it as may be necessary for the recovery of the dues, will be sold, under the procedure directed in section IX of the Act.

20. The purchaser of a vessel sold under the provisions of section IX of the Act shall have the right to take it out of the canal on the day of purchase, or within such time as may be allowed by the Collector of Tolls, without payment of tolls.

21. When any laden vessel which has sunk, has been recovered; or, when any laden vessel has been seized under the provisions of the Act, or of these rules, the Supervisor shall give immediate notice of the recovery or seizure to the owner of the cargo or his agent, requiring the removal of the cargo without delay, and informing him that he will be required to pay all expenses necessary for the proper custody and storage of the cargo until removed.

22. If the Supervisor be unable to ascertain the name and place of business or the abode of the owner of the cargo of such vessel, the notice prescribed in Rule 21 shall be effected by a notice exhibited in his office, and by advertisement in at least one English and one vernacular Calcutta newspaper.

23. Steamers are not allowed to tow flats or cargo boats in the Circular Canal, but may tow one flat or barge at a time astern in the New Cut Canal.

24. *Lights and signals.*—All vessels, whether travelling or moored in the Calcutta Canals or Tolly's Nala, must, between sunset and sunrise, carry a white light in a lantern on the fore-part of the vessel where it can be distinctly seen from all sides. Barges or boats attached to a steam vessel, whether in motion or moored, shall carry the light prescribed above.

25. *Speed of vessels.*—Every vessel proceeding through the Calcutta Canals and Tolly's Nala must, between sunset and sunrise, limit her speed to three miles per hour.

QUESTIONS AND ANSWERS.

BOOKS FOR MIDDLE SCHOOLS.

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA asked:—

Has the attention of the Government been drawn to the fact, that although Circular No. 58 (30th March, 1897) of the Director of Public Instruction lays down that the Middle Schools Session should commence on the 1st October, the list of books for these schools is not notified in the Gazette till November?

Is the Government aware that this arrangement not only interferes with the courses of study in these schools, but also entails hardship and inconvenience to authors whose books are prescribed?

Will the Government be pleased to issue orders so that the list of books for middle and primary schools may be published about June, or, in any event, some reasonable time before the session commences?

The Hon'ble MR. EARLE replied—

"The Circular referred to by the Hon'ble Member does not lay down that the Middle School Session should commence on the 1st October, but that it should be held to commence from that date for the purpose of deciding on the eligibility of candidates to appear at the Middle Scholarship Examination. As a matter of fact, the scholastic year in Middle Schools does not usually begin till towards the end of October or the beginning of November; while in High Schools, in which the Middle School courses are taught, it does not commence till January or February. However that may be, it is very desirable that the list of books for the Middle School courses, which has hitherto been published at the end of October or the beginning of November, should be published at an earlier date. Arrangements will accordingly be made by the Director of Public Instruction to issue it in future early in August. It is understood that orders to this effect will give satisfaction."

THE BENGAL FINANCIAL STATEMENT FOR 1904-1905.

The Hon'ble MAULVI SERAJ-UL-ISLAM, KHAN BAHADUR, said:—"With Your Honour's permission, I will submit a few observations in connection with the Financial Statement laid before the Council.

"It is a matter of congratulation that, in spite of the unsatisfactory rainfall, the actual ordinary revenue of the current year is likely to be better than the estimate by Rs. 2,24,000, though this increase will be reduced by Rs. 1,10,000 by the reduction in the opening balance.

"On behalf of the people of Chittagong, may I be allowed to express our feelings of gratitude for the assignment of Rs. 87,000 from Imperial Revenues in the shape of the remission, which was sanctioned by His Excellency the Viceroy during his recent visit to the port, of the unpaid balance of a loan taken by the Port Commissioners of Chittagong.

"In the revised Budget for the current year a saving of Rs. 2,52,000 is shown as being due to a smaller outlay on preventive measures against Plague; and in the Budget Estimate for 1904-1905, provision has been made for Rs. 85,500 only, against the provision of Rs. 3,20,000 in the Budget of the current year, on account of Plague. I must congratulate the Government on the prospect of reduction of expenditure under this head. I hope that plague will die out before long, and that all extraordinary expenditure on this account may cease altogether; but, until then, if the expenditure on preventive measures be met in the Mufassal out of the Provincial Revenues, I may be permitted to urge on behalf of the Corporation of Calcutta, of which I have the honour to be a member, that the ratepayers of Calcutta do not understand why the expenditure of the Corporation

should not also be met by a contribution from the Provincial Revenues of this Government. Out of their not very extensive funds, the Corporation has had to budget for Rs. 1,10,445 on account of Plague expenditure for 1904-1905, Rs. 90,000 of which has to be paid out of ordinary revenue.

"I may remind the Council that a contribution of Rs. 2,50,000 was made by this Government in 1899-1900, when the revenue funds of the Corporation were in a far more satisfactory condition than at present. Contributions were then discontinued, because the Government of India as well as the Local Government considered that the annual revenue funds of the Corporation were capable of bearing a portion of this extraordinary burden and that the balance should be provided by borrowing from the public, loans and interest being met out of the same overburdened revenue funds. The Local Government, in consultation with the Government of India, was, however, pleased not only to discontinue the contribution from the Provincial Revenues, but also to refuse sanction to any further borrowing on this account; and thus the revenue funds of the Corporation are now overburdened to meet all expenditure for measures against plague. If in the year 1899-1900, when the Corporation had a surplus, the Government was justified in contributing Rs. 2,50,000 towards the plague expenditure of the Corporation, then I submit that the Government is far more justified in relieving the Corporation of a portion of its extraordinary burden of plague expenditure in 1904-1905 when the revenue funds of the Corporation require replenishing.

"The people of Bengal are undoubtedly much beholden to Government for allotting the large sum of Rs. 7,66,000 for improving the prospects of the hitherto poorly-paid ministerial officers, for providing for the appointment of an Additional Judge in the High Court, and for adding a large number of officers to the Provincial Subordinate Executive Service. The reforms proposed to be introduced in the Calcutta Police by allotment of Rs. 50,000, will, it is hoped, be appreciated by the Calcutta public.

"It is a matter of regret that the new Provincial Settlement has necessitated the stoppage of the special annual grant of Rs. 5,00,000 to District Funds for the improvement of Communications. It may be hoped that means will be found in the near future at least to resuscitate, if not to increase, the annual grant for so useful a purpose.

"It is a well-known fact that malarial fever has proved a great scourge in Lower Bengal, and the matter has been under the serious consideration of Government for some time past. Expert advisers of Government have often pointed to the necessity of having efficient drainage as one of the most important means of minimising the baneful effects of this fell disease. I would therefore take the liberty of suggesting that a reasonable sum be allotted for the purpose of making an experiment in the efficient drainage of the riparian and other villages round Calcutta."

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA said:—"I desire to offer my sincerest congratulations to the Hon'ble the Financial Secretary for the eminently satisfactory Financial Statement which he has presented to this Council, and the lucid manner in which he has explained the effect of the new Provincial Settlements upon the finances of the Local Government.

"The new Settlement has been regarded with some misgivings by well-informed persons, but I am unable to share the doubt which they have expressed. So far as I can judge, upon a careful examination of the history of Provincial Finance, the system hitherto in force has been defective in, at least, two directions: in the first place, a periodical revision necessarily interferes with the continuity of Provincial Finance; and, in the second place, it distinctly tends to encourage extravagance rather than economy. Under the new system, Provincial Finance acquires, relatively speaking, a larger amount of stability, and, so far as I can make out, the Provincial Government is likely to be benefited ultimately, inasmuch as it will not be open to the Imperial Government to appropriate and absorb any possible balance at the end of every five-year term. Of course, the character of permanency which is thus impressed upon the Provincial Settlement, is merely relative, in as much as

the Imperial Government reserves to itself the power of revision as occasion may require; in other words, the difference between the old and the new system is, that under the old system the Settlement must necessarily be terminated and re-constructed once in five years; under the new system, the Settlement is to continue unaltered till changes are rendered necessary by reason of variations in the surrounding circumstances.

"It has been apprehended by some that as the Settlement is described to be permanent, if there is any growth of provincial expenditure not covered by a corresponding growth of the provincial revenues, the deficit must necessarily be met by the imposition of additional taxes or cesses. So far as I can make out, this apprehension does not seem to me to be well-founded. The Government of India reserves to itself the power to revise the Settlement whenever necessity may demand it, not merely in the interest of the Imperial Government itself, but also in the interest of the Provincial Government. It is expressly stated that the intention of the Government of India is to exercise this power, when the variations from the initial relative standards of provincial revenue and expenditure have, over a substantial term of years, been so great as to result in unfairness, either to the Provincial Government concerned, or to the Government of India, or to other Provincial Governments. The Government of India may also revise the Provincial Settlements when confronted with the alternatives of either imposing additional taxation or of seeking assistance from the Provinces. It seems to me, therefore, that the new system possesses stability as well as elasticity, and I have little doubt that if it is worked fairly and reasonably, it will be found, as years pass on, to be beneficial to the Provincial Government, and a distinct improvement upon the system which has just come to an end. I do not desire to offer any criticisms upon the details of revenue and expenditure assigned under the new Settlement, because, it would be somewhat premature to discuss whether the distribution will be found ultimately to the advantage of the Provincial Government.

"As to the details of the Financial Statement, they indicate, on the part of the Government, a desire and an endeavour to carry out reforms where they are urgently needed. It would be idle to assert that the distribution will please everybody. But I venture to think that it may rightly be pointed out that the claims of different sections of the community have been liberally considered.

"So far as the subject of Education is concerned, the distribution appears to be, on the whole, satisfactory, subject to one reservation which I will presently explain. For the last two years I have contended before this Council, that if the Provincial Educational Service and the Subordinate Educational Service are to be efficiently manned and organised, the prospects of the Department must be considerably improved. It is a distinct disappointment to me that no effective action has yet been taken in this direction. As I have repeatedly pointed out, the initial pay is too low, and the number of appointments in the higher grades too few. It is idle to expect that a distinguished graduate of the local University will prefer an appointment in the Education Service when the Government offers him appointment in the Judicial or Executive Service upon terms which are distinctly more advantageous. If the Education Service be placed upon substantially the same footing as the Judicial or the Executive, I have no doubt the more scholarly among our graduates will naturally seek employment under the Education Department. The matter is one of great urgency and importance; and I earnestly trust that it will receive, at Your Honour's hands, the consideration which it deserves.

"Before I leave the subject of Education, I desire to make a pointed reference to the subject of the reduction of Government scholarships both in number and amount. The figures in relation to this matter are fully set out in the answer which was given to my question put in this Council on the 14th of August last; and I do not propose to repeat them here. I state, without any hesitation, that the reduction which has been effected is a matter of the deepest regret; and there does not, in my judgment, seem to be any justification for the course adopted. The reason which has been assigned is certainly an extraordinary one: it is pointed out that the amount which has been hitherto spent on junior and senior scholarships in Bengal has exceeded the two *per cent.* limit fixed by the Education Commission of 1881. I will not pause to inquire by whom this

brilliant, but somewhat belated, discovery has been made. But are we quite sure that we have made no progress in Education since 1881, and are we equally sure that all the other recommendations of the famous Commission of 1881 have been religiously observed and followed? It seems to me that if the recommendation of the Commission has been ignored for twenty years, it might well have been allowed to lie buried and forgotten for a longer period; in any event, if it was obligatory upon this Government to act up to this particular recommendation, the Educational expenditure ought to have been so increased and regulated as to allow the number and value of scholarships to continue according to the scale which has hitherto prevailed.

"The Hon'ble Mr. Earle pointed out that the amount set free by this reduction was only Rs. 14,376 *per annum*, and had been allotted for the creation of additional primary scholarships. It is obvious that the amount so set free is from the Government point of view an insignificant sum; but the hardship caused by the reduction is very substantial upon poor students. I will illustrate it by one concrete example: under the old system, an indigent student—and there are many such in this country—who obtained a 1st grade junior scholarship of Rs. 20 a month might easily be educated at the Presidency College, where the College fees for junior scholarship holders is Rs. 10, leaving a sum of Rs. 10 for the maintenance of the student. Under the present system, the scholarship is reduced to Rs. 16, which would leave Rs. 6 for the maintenance of the student.

"Then, again, under the old system, the value of the 3rd-grade junior scholarship being Rs. 10 a month, the College fee was fixed for all junior scholarship holders at Rs. 10. The value of the scholarship is now reduced to Rs. 8, but the College fee is maintained at Rs. 10. I asked the Government to consider whether the College fee should not be reduced for those who receive stipends, and I was told in reply that no change can be made. When the Government refuses to make the reduction, one must assume that there are grounds for the decision; but, I will add this without hesitation, that this declaration is inconsistent with the avowed policy of the Government to encourage Education, specially among students of ability and distinction, but of limited means. I earnestly appeal to Your Honour, on behalf of the poor students of this Province, to examine the whole question of junior and senior scholarships, and to afford them such relief as may be found possible under the circumstances.

"In dealing, Sir, at some length with the subject of Education, I have been perhaps encroaching upon the Province which rightly belongs to my Hon'ble friend who represents the University. I will, therefore, turn, for a moment, to the interests of the Great City, the Municipal Corporation of which I have the honour to represent in this Council. It must have been a source of great satisfaction to every individual who is interested in the improvement of the City of Calcutta that the Improvement Scheme has, under Your Honour's administration, assumed shape and is within a measurable distance of being an actuality; but for Your Honour's statesmanlike intervention, we might still have been in the happy position of deliberation, correspondence and discussion; and we owe it entirely to Your Honour's efforts, that an initial grant of 50 lakhs of rupees has actually been made for the initiation and promotion of the Improvement Scheme.

"But, Sir, though this grant may be described as princely, and is a matter for sincere congratulation, I cannot conceal my conviction that the relation between the Imperial Government and the City of Calcutta has in the past been neither fair nor just to the latter. Calcutta is not an isolated town; it is not merely even a Provincial City, but it is an Imperial Capital; and I make this claim, on behalf of the Corporation which I represent, that it is fairly entitled to an annual grant, through the Provincial Government, from the Imperial Revenues. If Calcutta is to be maintained and continued as an Imperial City, it is not fair to the Corporation to say that you must maintain yourself entirely out of your own revenues.

"I do not overlook the fact that the Government, as owner of properties which belong to it within the municipal jurisdiction of Calcutta, contributes to the funds of the Corporation just in the same manner as any private

owner of property does. But I make a higher claim on behalf of the Corporation, a claim for an annual grant from the Imperial Exchequer for the maintenance of an Imperial City. That my claim is by no means extravagant will be manifest if we examine the relation between the British Exchequer and the London County Council. An examination of the accounts will show that their receipts may be grouped under three heads, first, the Exchequer Contribution Account; second, accounts other than the Exchequer Contribution Account; and thirdly, Loans. Under the first head, namely, the Exchequer Contribution Account, we have grants from the Local Taxation Account under the two heads of (A) License and Estate Duties, (B) Customs and Excise Duties. Under the second head, that is, accounts other than the Exchequer Contribution Account, we have receipts of the nature of annual income and of the nature of Capital. Under the third head, we have receipts from Loans.

"If we take the case of the Calcutta Corporation, we have practically nothing under the first head. I have used the word 'practically', because out of what is included in England under License and Estate Duties, a small portion is, in this country, included under Trade Licenses granted by the Calcutta Corporation. But it is substantially correct to say that we have nothing in this country, corresponding to the contribution by the Exchequer to the London County Council. Under sections 20, 21 and 23 of the English Local Government Act of 1888, and the English Local Taxation Act of 1890, the British Exchequer has to grant to the London County Council annually a certain proportion of the Customs and Excise Duties levied by the British Government. I find that in 1896-97, the grant by the British Exchequer to the London County Council amounted to £178,558 which in 1900-01 had risen to £225,729; in other words, if we express ourselves in Indian currency, the grant of the British Exchequer to the London County Council from the Customs and Excise Duties had risen from 27 lakhs of rupees in 1896-97 to 34 lakhs of rupees in 1900-01.

"As I have already explained, I have not taken into account the grant made by the British Exchequer to the London County Council out of the License and Estate Duties, which roughly, speaking, amounts to twice as much as the grant made out of the Customs and Excise Duties. Confining our attention, however, to the grant made out of the Customs and Excise Duties, we find that the Exchequer contribution amounts to $\frac{1}{15}$th of the ordinary revenues of the London County Council. If the Imperial Government here could be induced to make an annual grant to the Calcutta Corporation at the same rate, the amount would be 3½ lakhs of rupees a year. If, however, this should be considered too large a demand, as in England about half the cost of the Metropolitan Police is charged on the Police Rates (the other half being contributed from the Local Taxation Account and from Imperial Funds), I think I can reasonably press for half the amount stated, namely, for an annual contribution of Rs. 1,75,000. This, I find, is roughly represented by the annual increase in the Excise Revenue in Calcutta, which is stated to be Rs. 1,82,000 in 1902-1903 (Administration Report, 1902-1903, paragraph 457). I venture to urge, therefore, that the Calcutta Corporation is fairly entitled, at least, to an annual grant representing the annual increase in the Excise Revenue in Calcutta.

"While making this claim on behalf of the Corporation I represent, I trust I may be permitted to point out, without impropriety, that the Government is strongly represented on the Corporation and ought to trust that body. I have no desire to revive the angry controversies in this Council five years ago; but I may invite attention to the fact that, under the present constitution, of the three co-ordinate bodies which carry on the Municipal Administration of Calcutta, the Government appoints the Chairman and fully one-third of the members of the General Committee and 30 *per cent.* of the members of the Corporation. Surely this is a constitution which ought to secure the confidence of the Government, and I repeat that if Calcutta is to be maintained as an Imperial City, it is not fair to make the Municipal Administration dependent almost solely upon funds supplied by rate-payers, it is not fair for the Government to refuse to recognise the responsibility which undoubtedly

rests upon it of making a substantial contribution from the Imperial Exchequer, and it is not fair for the Government to have a voice merely in the Administration but no burden upon the Imperial Revenues. I feel confident, Sir, that although the claim to a share of the Imperial Revenues which I advocate on behalf of the Corporation may seem surprising, and, perhaps, unwelcome, to the Imperial Government itself, if the Imperial Government will only imitate the example of the British Exchequer in its relation to the London County Council, this claim will be regarded as a mere truism by the next generation."

The Hon'ble BABU BHUPENDRA NATH BASU said:—"The first thing that strikes one in the Budget is the Settlement with the Imperial Government. I wish I could share the satisfaction of Your Honour's Government on the result of this Settlement. It is no doubt a great gain that the limits of the period of settlement have been removed, and instead of the five years to which we had become accustomed, we have now a settlement of indefinite duration. To Your Honour's Government, Sir, it is a great relief that the old state of things, of starved parsimony during the first years and of inconsiderate extravagance during the last years of the settlement, is gone, and that Your Honour's Government will be able to pursue its course uncrossed by the phantom of the hand that would spirit away the fruits of all care and economy. But if the period is indefinite, are we altogether free from the fear of intervention? This is what Sir Edward Law says: 'It is evident that the Imperial Government cannot undertake any absolute obligation to maintain at all times a definite proportion between the share of increase of revenues assigned to Provincial Administration and that which it is necessary to retain to meet the growth of Imperial expenditure, and it must always reserve the right to make either special temporary or more permanent reductions from Provincial Revenues, if the exigencies of the State should require such measures.' This is an important reservation. No one will grudge the Imperial Government a liberal contribution in the case of an emergency, but we have some experience of what at times these emergencies mean, and a costly trans-frontier war or a political mission may sweep away the labours of many years.

"There ought to be a distinct line of division between Provincial and Imperial Revenues, and a system should be adopted under which the Provincial Governments should be allowed to nurse and increase the revenues specially allocated to their needs, absolutely free from any inroads by the Supreme Government. It would have been a great relief if the system advocated by Sir Charles Elliot as President of Lord Dufferin's Finance Committee could be adopted, or if that were not found practicable, the occasions when the Imperial Government might come down upon the Local Administrations for enhanced contribution were clearly defined on the lines laid down by the Government of Lord Ripon, namely: 'That the Imperial Government will make no demand on them (*i.e.* the Local Governments) except in the case of disaster so abnormal as to exhaust the Imperial reserves and resources and necessitate a suspension of the entire machinery of public improvement throughout the Empire.' In the present state of things we may be called upon to surrender our revenues any time at the bidding of the Imperial Government. It has been said on very high authority that we are too apt to make imputations against the Government, and it may be said that the Imperial Government will not exercise their power except on the grounds of clear and absolute necessity. We do not for a moment assert that they would; but it is sometimes difficult for us to find out the grounds for such necessity, and our experience in the past does not inspire us with such confidence. It is unfortunate that this should be so, but who can say that what has been done in the past may not form a precedent for the future?

"Apart from the question of periodicity, what do we gain by the new Settlement? The contribution under the heading of Stamps has been increased from $\frac{1}{4}$ to $\frac{1}{3}$; under the heading of Excise, the contribution has been increased from $\frac{1}{3}$ to $\frac{2}{15}$; under the heading of Assessed Taxes, the contribution has been raised from $\frac{1}{3}$ to $\frac{2}{4}$; under the heading of Forests, from $\frac{1}{3}$ to $\frac{2}{4}$. The Customs have been wholly Imperialized and the Registration wholly Provincialized.

This gives us a net loss of about Rs. 60,71,000 against which we have the Government grant of Rs. 49,06,000. The Imperial Government has raised its contributions on all heads of progressive income, and has thus weakened rather than strengthened our financial position. The Settlement has forced Your Honour's Government to withdraw the special grant of 5 lakhs which three years ago Sir John Woodburn had decided to make to District Boards for improvement of Communications. There is an interesting history of this grant to which I shall refer hereafter. It is the history of vanished millions, of funds raised for one purpose and diverted to another; it is a history of broken pledges and broken assurances, of tardy reparation for a grievous wrong and of reparation again arrested for want of funds.

"We are thankful to the Government of India for its grant of 50 lakhs towards the carrying out of the scheme for the improvement of Calcutta. That scheme is not yet before the public, and nothing but disquieting rumours have so far been heard about it. But, Sir, whatever that scheme may be, I venture to hope that it will not mean additional burden upon landed property in Calcutta. The present cost of Municipal Administration is practically wholly thrown upon house property in Calcutta, and all persons competent to form an opinion on the subject are unanimous that no further burden can be put upon that property. We had hoped that Your Honour's Government would also make a liberal contribution towards the sanitary needs of Calcutta. We trust that hope will yet be realized. No amount of municipal taxation will serve to remove the structural defects of the northern part of Calcutta—defects which originated and grew when the Municipal Administration of Calcutta was entirely in the hands of the Government and for which the representatives of the people were led to the sacrificial stone. Sir, the plague is now present with us as a feared but permanent guest.

"True it is that large sums of money have been spent in the improvement of Calcutta, but moneys which ought to have gone towards the relief of the congested parts have been spent in making the city ornamental and attractive, and the unhealthy areas, except for a few squares and the dismantled bustees which cost nothing or next to nothing to the Corporation, but a great deal to the owners, have remained where they were. The decentralization which was expected to secure saving has resulted in enormously increased expenditure and the charges on establishment have increased by more than four lakhs a year. Municipal servants are paid salaries which are unknown in corresponding posts in Government service, but municipal roads and municipal conservancy are, if possible, worse than ever.

"Four years are nearly gone since the present Act was introduced, and only one year remains within which the system of the continuous supply of filtered water is to be completed inthe town of Calcutta. I have the honour to live in a ward where this system is supposed to be in force, but where water is absent during the greater part of the day—during the hot midday sun, and is only available when not wanted in the cool and sleeping hours of the night. If this was meant to be a continuous supply, we shall have to ask the Legislature to introduce a special definition for the word.

"Notwithstanding that all expedients have been exhausted, debiting Revenue heads to Capital accounts, of treating sale-proceeds of surplus lands acquired with Capital as Revenue, there is a deficit of nearly two lakhs a year in the receipts as against expenditure, a large part of which is recurring. Though it is well-known that plague and municipal regulations have depreciated the value of land in the northern parts of Calcutta, the assessments are being revised every six years and being continuously and steadily enhanced. The rates have remained nominally stationary, but actually taking into consideration the enhanced assessments, they have risen by more than 25 *per cent.*

"The representation of the rate-payers is not sufficiently strong on the Corporation. As against 10,143 Hindu and 1,413 Muhammadan voters in 1898, we had 4,495 Hindu and 743 Muhammadan voters in 1903. Against 13 contested elections in 1898, we had 2 in 1903. In this state of things, the rate-payers are entitled to look to Your Honour's Government for protection and relief.

"The question of Plague in Calcutta is not a question which affects, the city and the lives of its inhabitants alone: with it are bound up its commerce and its prosperity, and the commerce and prosperity of the whole province, if not of all India. In 1899-1900, the Government made a grant of 2 lakhs and 50 thousand for the Plague expenditure of Calcutta. This grant has since been stopped. The Corporation of Calcutta met plague expenditure by borrowing; but the Government has directed that the expenditure on plague should be met from revenue. The Corporation has to provide annually a sum of Rs. 1,54,000 for interest and sinking fund on the amount already borrowed, which comes up to Rs. 11,25,000, and has also to meet the current expenditure; thus a burden is thrust on shoulders on which alone in any event it ought not to be placed. I would earnestly appeal to Your Honour to take this matter into your consideration, and, apart from large schemes of improvement, to come to the rescue of the Corporation in this respect at least.

"Before I pass from this subject, there is one matter to which I would call Your Honour's attention. In former times, assessment appeals lay to the Commissioners. They were removed from the cognizance of the Commissioners to that of the Chairman with a right of final appeal to the Calcutta Court of Small Causes. The change was sought to be justified on various grounds, and it was asserted that it would not mean any additional harassment or expense to the rate-payers. This state of things continued from 1888 to 1901, when after the introduction of the present Act the Government of Bengal, by a notification, declared that all appeals against assessment should bear the same Court-fee as an ordinary suit. Whatever may be the defects of the Court of Small Causes which is a Court of summary jurisdiction, it is the only Court to which rate-payers can look for relief, but, except in the case of the wealthy, the rate-payers of Calcutta have been deprived of the remedy by appeal such as it is against the assessment made by the Municipal Executive.

"There is one matter in connection with Calcutta to which I would call Your Honour's attention. We find a provision for two lakhs for residences for Government officials. The budget statement is silent as to what this is meant for; but we are told that it is for the purpose of building houses in Calcutta and that it is intended to continue the grant to relieve Government officials from the rapacity of the house-owners of Calcutta. Having regard to the pay of these officials, it would be unfair to contribute to their house-rent from the public revenue; and are house-owners so rapacious as they are represented? Taking the value of land, the cost of materials, the Municipal demand and vacancies and repairs, they seldom, if ever, get more that 5 *per cent.* It would not be just to them if Government were to enter into competition with them. The Government has very properly withdrawn from such competition in the case of Jail Manufactures on the representation of the Trades Association, and surely Government is not going to change its policy, because land-owners and not tradespeople will be thereby affected.

"Coming to the subject of Education, we find the total Government grant is only Rs. 35,19,000 against a population of 74,744,966, and if we include the contribution of Rs. 18,57,000 by the District Funds it would bring up the total amount to Rs. 53,76,000, giving a ratio of Rs. 7 per head of population for money actually spent on Education. No one can say that the expenditure on Education is sufficient for the needs of the country. The number of boys last year in the primary and secondary schools was 1,427,109 against a population of school-going age of nearly 36 millions. Sir, the Government is directing special attention to the question of Education. It has taken the control of higher Education entirely into its own hands, but what is wanted is not so much Government control as Government encouragement. Sir, it would be easy to show from figures—it has been shown before in this Council as elsewhere—that of all civilized Governments ours spends the least on Education, and when we consider the ignorance of the masses, it seems strange that it should be so.

"The improvement of agricultural methods, the diversion of the people from agriculture to industrial pursuits, all depend upon the question of the education of the masses; and though some progress has been made in the

matter of primary education, much remains yet to be done. We have at present one primary school to every four villages, whereas we ought not to have less than one school in every village. Primary schools, properly conducted, would serve to disseminate knowledge of improved agricultural methods among the peasanty far better than the projected institution at Pusa. The gurus in charge of the primary schools are human beings after all, and with the present prices of foodstuffs and other necessaries it would not be possible to expect good work on a salary varying from Rs. 5 to Rs. 9 a month—a salary which an ordinary peon in Government service would reject with scorn. It would be a truism to state that you cannot expect good work from men unless you pay them well. Of all departments of the State, the Subordinate Educational Service is probably the worst paid. I do not know why it should be thought that any pay would be good enough for teachers of youth. The members of the service are quite as well educated and drawn from the same class as those of the Subordinate Executive Service.

"In the Educational Service the grade begins at Rs. 50 a month and ends with Rs. 200 a month. We find many M.A.'s and B.A.'s in the grade of Rs. 50, from which they cannot rise to the grade of Rs. 100 in less than ten years. In the Subordinate Executive Service the initial pay is Rs. 100 a month; there is a comparatively large number of appointments in the higher grade, and promotion, though slow, is rapid compared to the Subordinate Educational Service.

"Coming to the Provincial Educational Service which may be compared to the Provincial Executive Service, we find the same difference. Some of the very best men which English education in this country and in England given to us are in the Provincial Educational Service. As regards Educational qualifications, they stand the foremost, but their pay and prospects are less than those of the Provincial Executive Service. A Deputy Magistrate begins on a pay of Rs. 200 a month, but these men, not infrequently distinguished graduates of English Universities, begin on a salary of Rs. 150 a month. They can rise only to Rs. 700 a month, whereas a Deputy Magistrate in the usual course rises to Rs. 800 a month, and has besides these posts in the Provincial Educational Service and various special appointments.

"Promotion again in the Educational Service is much slower. If, Sir, you want the quality of education to be improved, you must attract good men to the service. We want men and money and not statutes and declarations. It is true our B A.'s and M.A.'s are poor men, and that you can get them to serve on Rs. 50 a month, but they find their contemporaries who were more favourably circumstanced than themselves and probably very much less distinguished in their academic career earning a better livelihood in other walks of life, and it is but human that though untoward circumstances may have forced them into the Subordinate Educational Service, their heart is not in the work. It is well-known that no graduate of any parts will accept service in the Education Department, unless absolutely forced to do so by pressure of circumstances. It is not fair to them that advantage should be taken of their poverty, and not fair to the country and conducive to the cause of sound education that, we should have a disheartened and discontented body of men employed in the work of Education.

"Sir, the consideration of the prospects of the Subordinate Educational Service leads me to the question of another service, which also is very much underpaid—I mean the Subordinate Indian Medical Service. The pay of an Assistant Surgeon was fixed at Rs. 100 at a time when the pay of the Munsif was also fixed at Rs. 100 a month. The Munsif's initial pay has increased to Rs. 200 a month, and the pay of his final grade is Rs. 1,000 a month. The Assistant Surgeon, except for a few appointments on Rs. 300 a month, must end with Rs. 200. Sir William Grey, satisfied as to the injustice done to this class of officers, recommended that their pay should be raised to Rs. 200 rising to Rs. 400, but the Government of India vetoed it on the ground that a second Medical College had been established at Lahore, and the supply would be much more than the demand. Sir, our Assistant Surgeons have to pass the F.A. Examination of our University, and then have to pass through a special course of

training for five years and undergo two examinations, the stiffest known in India, and probably stiffer than any other Medical Examination in the world. It used to be said that these men had the advantage of a private practice. It was true in former times, but it holds no longer true under the present state of things. The unattractiveness of Government Medical Service with two septennial examinations have thrown our best medical graduates on their own resources, and nearly every mufassal town has now got its complement of fully qualified medical practitioners. The opportunities of the Government servant for private practice have thus become very much restricted and he has practically to live on his pay. Having regard to the facts that these officers represent the highest training that our University can impart, that men who have come out of the University with much less trouble are in receipt of much higher pay, that their duties are the highest and noblest known to humanity, that only lately the pay of members of the Indian Medical Service have been enhanced, I think it is but fair that their pay should in some measure be commensurate with their knowledge, skill and attainments.

"There is another class of officers whose horizon the Government ought to enlarge. I refer to the Sub-Deputy Collectors. The present body of Sub-Deputy Collectors are as well educated as the Deputy Magistrates: they perform duties which are responsible and onerous, but they cannot rise beyond Rs. 200. They are greatly overworked, as has been admitted on all hands: there is a grant now to increase the number of these officers, but that will not enhance their prospects. I am quite confident that Your Honour's Government will treat this question with sympathy.

"There is one other matter to which I wish to call the attention of Your Honour's Government. The Government made a saving of Rs. 2,52,000 in the outlay on measures against the plague. In the Imperial Budget, plague occupies a sinister pre-eminence. In the alluvial soil of Bengal, plague does not work the havoc that malaria does. In all our vital statistics, fever plays the most important part; it levies the heaviest toll. Plague strikes terror by its suddenness, but malaria is an insidious poison eating into the vitals of our national life. It has made life in the interior of central, north and parts of West Bengal intolerable, and is tending to the congestion of our cities. If the Government were to include the riparian tracts near Calcutta in an experimental zone and try the effects of good drinking water and good drainage and wage war if it likes against the mosquito parasite, a great step would be gained. If the experiments succeeded, they would be rapidly followed throughout the country, and the Bengal villages would again have the prosperous look which has departed from them.

"The only means which the people might have at their disposal for supplying the needs and improving the sanitation of villages was the Road-Cess Fund, but this has been practically diverted to other ends. I have already taken too much of Your Honour's time, but this is a subject on which I will ask Your Honour's leave to dwell at some little length. We regret that Your Honour's Government has been obliged to withdraw the grant of 5 lakhs to the District Boards for contribution towards Roads. Mr. Baker, as Financial Secretary of the Government, while announcing the grant of 5 lakhs, thus described the helpless condition of the Boards:—

> It has long been felt that the resources of the Boards are not elastic enough to enable them to discharge their duties efficiently. And though it is not permitted to us, under the existing system of Provincial Finance, to permanently alienate any part of the Provincial Revenue, we shall do what we can, now that the funds are available.

"Considering that funds are available, it does seem inexplicable why this grant is withdrawn. There is a well-founded complaint all over the province that the Road-Cess is diverted to purposes for which it was not intended. Such a charge ought not to be allowed to continue. I shall, with the leave of this Council, briefly recapitulate the history of the Road-Cess. The zamindars who opposed the imposition on the ground that it would be a breach of the terms of the Permanent Settlement yielded only when an assurance was given by the late Duke of Argyle, then Secretary of State for India, that not only would

the Cess be levied by the cess-payers themselves, but it would also be spent by their representatives. The following extracts, from His Lordship's Despatch, would show the object and scope of the cess:—

Paragraph 22.—It is above all things requisite that the benefits to be derived from the rate should be brought home to the donors; that the benefit should be palpable, direct, immediate.

Paragraph 23.—That besides local roads, the proceeds of the Cess should be devoted to the making and improving of wells, tanks and other works of irrigation, affecting comparatively small areas of land.

Paragraph 25—That as far as possible the assent and concurrence of the rate-payers should be secured both in the levy and in the management of the rates.

"The above quotations not only establish the purely rural character of the rate but the fact that the Cess should be spent for roads, tanks, irrigation and similar works affecting comparatively small areas, which means small tracts. Sir George Campbell made this clear in his proclamation introducing the Cess Act. He said:—

Every pice levied under the Cess Act, will be spent to improve the local roads, canals and rivers in the district, for the benefit of the inhabitants.

Again:

The tax shall be fairly applied to the village roads and local paths, or water-channels in which the tax-payer is interested.

"What the authorities have been doing, however, is to make the Cess Fund maintain Provincial or district and feeder roads and throw other burdens upon the cess-payers, which ought to be borne by the Government. This operation began in 1880. In that year, an Act was passed in a Council not then constituted as now under which the Road-Cess Fund was charged with certain liabilities not originally intended. The Local Self-Government Act of 1885 converted the Cess Fund practically into Government property, to be dealt with in such a way as the Government pleased. Sir Alexander Mackenzie, though in his usual manner, warmly repudiating the charge made by the *Patrika* about the diversion of the Road-Cess from its original purpose, was yet pleased to issue a Circular by which he relieved the fund of a portion of its unjustifiable burdens. I shall quote from paragraph 7 of the Circular:—

Some relief might perhaps be given to the Boards from Provincial Revenue by revising the conditions under which certain Provincial roads were transferred to local management under the Bengal Acts of 1871–1880. It has been alleged, in the course of debates in the Legislative Council, that such transfers have been unfairly made so as to throw on local funds the burden of maintaining roads which should form a Provincial charge, and the subject is now under inquiry.

"It is a matter of regret to us that the grant of Rs. 5,00,000 a year to the District Boards, whose claim was so clear, has been withdrawn. I am afraid of tiring the patience of the Council. I have not gone into the matter in fuller detail, but I am sure that when Your Honour comes to inquire into the history of this grant, Your Honour will see your way to restore it.

"Sir, our tale of grievances is heavy, and this is probably the only opportunity we have of laying them before you: but I am afraid if I were to go into them fully, it would be a long time before I should finish. However, there is one matter which, as one who has the honour of representing the Calcutta University, I cannot omit to mention. The recent Resolution of the Government of India, doing away with competitive examinations for the public services of our country, has taken us by surprise. Nobody has ever pretended that competitive tests are the best or the surest, but in the absence of any better, they must be preferred. The combined system of competition and nomination, which has hitherto prevailed, has worked with admirable results. The shutting of the open door of competition means the virtual closing of the career of many brilliant University men, who may not possess sufficient interest to secure a nomination. Appointments will now go to mediocres and men who will be able to gain the ear of the powers that be. I cannot but look with dismay upon this part of the Resolution of the Government of India. We have fallen upon

evil times and evil tongues, and our prospects are daily becoming more and more gloomy. I trust that in giving effect to this Resolution, Your Honour's Government will be pleased to frame rules in such a way as not to exclude our best men from the service of the Government of their country.

"His Excellency has challenged us to show any Government which encourages and utilizes indigenous talent in the way that the Government of India does. Sir, in this Council it would be impertinent of me to take up the challenge, and we must wait for the promised figures; but I may be permitted to say that His Excellency is under a total misapprehension as to the character of the rule which is now in his keeping. His Excellency has cited the examples of the Dutch and the Russians. We are the subjects of His Britannic Majesty and all is said thereby. We are and are proud to be citizens of the British Empire. The glory of England is that she has not attempted to treat us as a subjugated race. Her people, her Parliament, her Sovereign, have sought to place us on the same footing as any other subjects of the English Crown, and by her just and generous dealing she has inspired a loyalty in the Indian princes and people which no foreign rule in the history of the world has ever yet been able to secure. It is our earnest prayer that repressive and retrograde measures may not sap the foundations of that loyalty, and that, as in times past so in the time to come, we may go on trusting each other and cementing the bonds that bind us to a common destiny."

The Hon'ble RAI TARINI PERSHAD, BAHADUR, said:—"I must thank the Government and the Hon'ble the Financial Secretary for giving a very clear exposition of the financial relations established by the new Provincial Contract between the Imperial Government and the Government of Bengal. If the magnificent Imperial grant of Rs. 1,05,00,000 be left out of consideration for a moment, the opening balance amounts to Rs. 32,99,000, which is certainly a fair sum upon which the Government and the Hon'ble the Financial Secretary may well be congratulated. The present Budget gives us a forecast of many wise and benevolent measures, some of which are new, and some old, awaiting orders from higher quarters, but we hope and trust that they will all be *fait accompli* in the course of the year and add to the happiness and prosperity of the people over whose destinies Your Honour has been placed to rule.

"Before I proceed to express my opinions on certain points in the Budget, I would draw the attention of the Hon'ble the Financial Secretary to certain figures in the Budget, regarding which I would respectfully ask for certain explanations.

"It appears from page 6 of the Budget, that under the head of 'Charge of District Administration,' the Budget estimate for 1904-1905 is Rs. 34,54,000 as against Rs. 31,01,000, the revised estimate for 1903-1904, and Rs. 31,47,131, the actuals for 1902-1903. It also appears that the increase in the Budget estimate for 1904-1905 includes a lump provision of Rs. 1,50,000 for increase of salaries of ministerial officers, and also a provision of Rs. 74,000 for a larger number of Sub-Deputy Collectors and Deputy Magistrates. I would be glad to know how does the Government propose to utilise the balance of the increase.

"At page 6 of the Budget, under the head of 'Land Records and Agriculture,' a sum of Rs. 1,14,000 has been shown as the revised estimate for 1903-1904, and at page 7 of the same, this is described as providing for 'Temporary Establishment on Districts." This is not very clear to my mind. I would be glad to have some clearer explanation on the point.

"At page 9 of the Budget, under the head of 'Scientific and other Minor Departments,' provision has been made for larger grants for agricultural and silk experiments. I would like to know what is the amount of these grants and what will be the nature of the experiments.

"At page 19 of the Budget, under the head 'Land Revenue,' sub-head 'Management of Government Estates,' a sum of Rs. 5,55,000 has been allotted

for collection of revenue and outlay on improvements. May I know whether any portion, and, if so, what portion, of this allotment is for Agricultural Banks?

"I will now draw the attention of the Council to the subject of the Water-supply in the district. This is a subject of paramount importance; and although discussed threadbare almost at every year's Budget meeting, it does not lose its novelty, but presses every year upon our attention with fresh impetus, and prompts us to inquire as to how far the sufferings of millions of people from an inadequate and impure supply of water in the district have been alleviated during the year. The Council is aware that Government is keenly alive to the importance of this subject, and it is therefore idle on my part to dwell on those sufferings which are intense, especially in seasons of drought. I would, however, crave leave to ask whether the Government could not do more than what it has actually done to afford relief in this direction. I beg to read an extract, which is, I believe, familiar to all, from the Resolution of Government reviewing the reports on the working of the District Boards in Bengal during the year 1894-95. It runs thus:—

In order, however, to secure that something, however little, should be done every year, it seems to His Honour that every District Board might properly set apart at least the sum of Rs. 5,000 a year for the improvement of water-supply, to be spent either in digging or improvement of wells, or in the excavation or restoration of tanks to be reserved for drinking purposes only. The amount suggested is rather more than double the amount actually spent during the past year, but *it is very small when compared with the urgency of the want and the extent of the area to be served.*

"Now let us see how far the suggestion of Government was acted up to by the District Boards. It appears that the maximum limit of Rs. 5,000 was attained by the District Boards in 1895-96, the first year that the suggestion was to take effect in 2 districts only, in 1896-97 in 10 districts only, in 1897-98 in 19 district only, in 1898-99 in 6 districts only, and in 1899-1900 in 3 districts only. In explaining this default on the part of the District Boards, the Hon'ble Mr. Baker, the then Financial Secretary, was pleased to observe:—

The only reason I can give is that the resources of the District Boards have been unequal to the task. The resources of many Boards were exhausted in dealing with the famine, and they have not had funds to spare for works of this description.

"This explanation is far from satisfactory, as I shall presently show. We find that in the Resolution reviewing the reports on the working of the District Boards during the year 1900-1901, Government did not even notice any case of default by a District Board in spending the minimum sum of Rs. 5,000, but, on the other hand, enunciated the following proposition: 'The provision of wholesome water in villages is not a difficult or costly matter, and throughout India it has always been regarded as one of the chief duties of the *land-owner*.' This idea of Government was developed the next year, and the responsibility for supplying water in villages was thrown not only on the zamindars, but *on the local residents* as well, as will appear from the following extract from the Resolution of Government reviewing the reports on the working of the District Boards during the year 1901-1902:—

The Acting Lieutenant-Governor is disposed to agree with the Commissioner of Bhagalpur that the duty of the District Boards is to provide for water-supply along the main roads, as has been done in Monghyr, and that the improvement of tanks and wells in villages is more especially the duty of zamindars and local residents.

"Neither in the Resolution of 1901-1902 nor in that of 1902-1903 any reference has been made by Government to the said sum of Rs. 5,000, or to case of default in respect thereof. I presume, therefore, that Government has given up the idea of expecting the District Boards to spend a minimum sum of Rs. 5,000 for supply of water in villages. I think, Sir, Government, which has of relaxing, should have insisted on the District Boards for spending of the opeminimum sum of Rs. 5,000, which, as the Government was pleased many brilliat in 1894-95, 'is very small when compared with the urgency of a nomination. t the extent of the area to be served.' If the Government think able to gain the rces of the District Boards are unequal to the task of spending this part of the Re

that amount, and if the District Boards fail to secure effective co-operation from the local zamindars, then I think the Government should make contributions from the Provincial Funds to make adequate provision for water in the district. No duty is more sacred to Government than to save the lives of the millions committed by the Almighty to its care, and the helping hand of Government should certainly be extended to the alleviation of the miseries of the suffering millions who are poor and helpless in this world.

"In Government Circular No. 8T.-M., dated Darjeeling, the 15th May, 1896, addressed to all Commissioners of Divisions, District Officers were asked to make the inspection of villages, with reference to water-supply, a cardinal point in their own tours and in those of their subordinates, and to take full notes of facts in each case with a view to supplementing and correcting the registers. It appears from the Resolution of Government reviewing the reports on the working of the District Boards during the year 1900-1901, that a question had been raised whether such periodical revision of registers did not involve an expenditure of labour and time out of proportion to the results. In my opinion such revision is very necessary in the interest of the localities concerned, and should not be done away with on the ground of expenditure only.

"I would beg to draw the attention of the Council to one more point in this connection. In reply to my remarks about the water-supply in the district at the debate on the last year's Budget, the Hon'ble Mr. Collin, the then Financial Secretary, was pleased to say in a letter addressed to me that Government 'would view with favour any attempt to revive the scheme put forward in Sir Alexander Mackenzie's time, in 1896-97, chiefly by Mr. Risley, when it was proposed to introduce local permissive taxation to provide for local wants.'

"We do not know whether it is still in the contemplation of Government to introduce such taxation, and, if so, what is the nature of it. In the absence of any definite knowledge on the subject, I do not think it proper to waste the Council's precious time by an elaborate examination of the subject. All that I at present feel bound to say is, that the suggestion of the then Hon'ble Financial Secretary has created alarm in the minds of the public, and will, if given effect to, bring a further strain upon the poor resources of the country already crippled by the burden of several taxes.

"Before I leave the subject of water, I would make a passing reference to the Water-Works of Bhagalpur. In reply to a question put by me recently about the Water-Works of Bhagalpur, the Hon'ble Mr. Shirres was pleased to inform me by a letter that Mr. Silk would visit Bhagalpur at a very early date, and he would then advise the Municipality and the Government as to what should be done.

"Mr. Silk came to Bhagalpur recently, and having seen the Water-Works, he has advised the introduction of centrifugal pumps for bringing water to the water-works' reservoirs. In reply to my remarks upon the Water-Works of Bhagalpur at the debate on the Budget of last year, the Hon'ble Mr. Collin, the then Financial Secretary, was pleased to say that if there was any necessity for assistance from Government, it would be ready to consider the matter. A case of necessity having been made out, Government has just been pleased to make the Municipality a grant of Rs. 10,000, a small portion of which will be paid in cash and the rest will be utilised in securing necessary materials for furthering out the scheme suggested by Mr. Silk and approved by Government. The suggestion of Mr. Silk, coupled with the Government grant, will, we hope, improve the works to some extent, and I, on behalf of the Municipal Commissioners and rate-payers of Bhagalpur, offer my cordial thanks to Government for the interest it has shown in having deputed Mr. Silk, and for the grant it has been pleased to make.

"I next come to the subject of Education. Now that the Universities Bill has passed into law, the whole system of Education in all its branches will in no time undergo a thorough remodelling; and on the present occasion, I shall

confine my remarks chiefly to primary Education. Last year, I placed a table before the Council, which showed that in point of education the Bhagalpur Division was the most backward in the whole Province, the percentage of boys at school to the population of a school-going age being only 13·8. But matters have now decidedly taken a better turn. A sum of Rs. 48,000 out of the Government grant of four lakhs for primary education was allotted to the Bhagalpur Division in 1902. An additional grant of Rs. 15,000 was subsequently made by Government in January, 1903. The cause of primary education has been much furthered by these handsome contributions, for we find that, during the year 1902-1903, the Division gained 31, or 11·5 *per cent.*, in the number of upper primary schools with 1,437, or 12 *per cent.*, in the number of their pupils, and 180, or 5·7 *per cent.*, in the number of lower primary schools with 74·50, or 9·9 *per cent.*, in the number of their pupils. I thank the Government for giving this impetus to the cause of primary education in this Division. It has been declared by the Government of India that 'the new Provincial Settlement does not take into account any contribution which the Government of India may find it desirable to make towards the expenditure rendered necessary by reforms which are in contemplation in the administration of Police and Education,' We hope Your Honour will be pleased to duly consider the claims of this Division when the distribution of a general grant in the cause of Education is made.

"Recently two important measures have been introduced to improve the efficiency of instruction in the primary schools—(1) there has been sanctioned one guru-training school in each sub-division of each district of the Province; and (2) the mode of aiding the primary schools has been changed, as 'all aided schools are now to receive a monthly subsistence allowance, supplemented by remuneration paid at the close of the year and calculated according to the general conditions of the school.' We hope both these measures will be successful. But with regard to the former, I have to observe that the teachers in the guru-training schools are not qualified up to the mark; and regard being had to the remuneration provided for them even at the increased scale, it is difficult to get a class of better qualified men. I am therefore of opinion that larger sums should be spent to remunerate the teachers; but if the available funds do not permit the same to be done, it is better for the present to have one good guru-training school only in each district which may be managed by well-qualified and well-paid teachers, and which may be located at the head-quarters of the district. I may add that the monthly stipend of Rs. 3 to be given to a guru during the period of his training is too inadequate, and I am glad to find that the matter is now under the consideration of Government.

Now, I beg to draw Your Honour's attention to one grievance of the Bhagalpur Division, to which I adverted at the debate on the last year's Budget, namely, the absence of any technical school or any technical side to any zilla schools in the Bhagalpur Division. It is an undoubted fact, and a fact well understood by Government, that technical schools are a great desideratum in this Province, and Government, with the best of motives, has introduced a system of bifurcation of studies in zilla schools. But how far this system has been introduced in the Bhagalpur Division will appear from the following extract from the Report of the Inspector of Schools of the Bhagalpur Division for the year 1902-1903 :—

> Under the bifurcation scheme, boys on promotion to the second class of a zilla school have the option of either continuing to study for the Calcutta University Entrance examination or of joining a technical class with a view to learn some handicrafts. This scheme has not as yet been put into operation in the Division on account of the want of technical or industrial schools. In accordance with the wishes of the Director of Public Instruction, recently communicated to me, I have requested already the Chairmen of the District Boards and the District Committees to open industrial or technical classes at their head-quarters. But a pressure from the Department is likely to produce better effects.

"It will appear from the above that without a technical school, the scheme of bifurcation cannot be introduced, *i.e.*, no technical side can be added to any zilla school. In reply to my remarks on the necessity for technical schools at the debate on the last year's Budget, I was told that 'the statistics available

do not show that there is much demand for technical education in that Division. In 1891-92, there were five industrial schools in it, attended by 168 pupils; while in 1901-1902, only one school was in existence, attended by six pupils * * * * * There is nothing to prevent a fresh application being made at any time: if made, it will receive the careful attention of Government.' Now, Sir, time has changed and the Division is advancing year after year, and so failure in the past is certainly not a clear indication that the scheme will be a failure also in the present. Furthermore, a technical school may now lead to the opening of technical sides to zilla schools, and therefore, unlike the past, technical schools may now be fed by the students of the technical sides of the zilla schools. I submit, when Government has shown great solicitude in other branches of Education, it should also do the same in this branch. It may very well take the initiative; and after ascertaining the state of funds from the District Boards may, if necessary, with contributions from Provincial Funds, see way to start some technical schools in this Division, which will be looked upon as a great boon by the people of this Division.

"It is gratifying to find that seven more Agricultural Banks were opened during the year just closed, and these, together with the 48 Banks opened before, make the total number 55, a fair number, indeed, at the beginning. We believe some more Banks will, as usual, be opened in the course of the current year.

"Your Honour has well earned the gratitude of the country by taking a keen interest in the cause of agriculture as evidenced by Your Honour's recent visit to the cattle-breeding farm at Pusa, and the grant that has been made for experimental cultivation. The importance that Government attaches to agricultural exhibitions and fairs will, no doubt, further the cause of agriculture a good deal.

"I next turn to the subject of services, both Subordinate Executive and Subordinate Judicial. It is gratifying to find that the present Budget includes a provision of Rs 1,48,000 for a larger number of Sub-Deputy Collectors and Deputy Magistrates, and that the total cost of strengthening the staff of Deputy Collectors is estimated at Rs. 3,00,000, and when the scheme is sanctioned, a further assignment of 2½ lakhs will be made from the Imperial Revenues. The thanks of the public are due to Government for this magnificent grant.

"It is also gratifying to notice that larger provisions have been made for fourth grade Munsifs and temporary establishments, which have caused a rise in the Revised Estimate of 1903-04 and the Budget Estimate of 1904-05.

"I next turn to that class of overworked and underpaid officers, namely, the ministerial officers. We are deeply thankful to Government for having made a magnificent grant of four lakhs for increase of salaries of ministerial officers. Not that Government did not do anything for this deserving class of officers during recent years, but what was done was insignificant in comparison with what was wanted. We were repeatedly assured that Government was in deep sympathy with them, and that it was only a question of time and funds to better their condition, and we notice with delight the fulfilment of the Government pledge. We doubt not that this grant will be distributed in the fairest manner possible amongst the various classes aggrieved, and I would humbly suggest that Government should not wait for any applications for relief, but should of its own motion make an early and thorough inquiry into the requirements of the different classes of ministerial officers, which alone can ensure a fair distribution of the munificent grant.

"In conclusion, I beg to say a few words about Plague. It appears that in the Budget of 1903-04 a sum of Rs. 3,20,000 was set apart for expenses in connection with plague against Rs. 4,50,000, the sanctioned estimate for 1902-03, and Rs. 50,000, the revised estimate for that year. It further appears that, during the year just closed, a sum of Rs. 67,000 only was spent out of the allotment of Rs. 3,20,000, in consequence of which there has been a saving of Rs. 2,53,000 (Rs. 2,52,000). The ravages made by plague every year in Bihar are well known to Your Honour's Government, and

I do not think there is materially any less need for Government aid now than it was two years ago. But we find to our surprise and disappointment that by far the greater portion of the allotment for plague is left unutilized year after year. Having regard to the yearly visits of that terrible disease, I submit that any curtailment of expenditure allotted for plague is not right and proper.

"It is possible that all the localities affected have not applied for Government aid; but, Sir, in my opinion, in matters affecting the life and death of people, Government should not wait for applications for aid, but should ascertain the local needs and extend its helping hand to meet them as far as possible. In this connection I beg to bring to Your Honour's notice that plague broke out at Bhagalpur last year, and it has played extensive havoc there this year. Our best thanks are due to Mr. S. K. Agasti, Joint-Magistrate in charge of the Plague operations at Bhagalpur on behalf of Government, who is straining his utmost and is not leaving a stone unturned to raise funds, to administer medical aid to the sufferers and to check the spread of the disease in the best way possible The efforts of the Municipality in this connection are also in full swing. A fair sum has been raised by subscriptions, but this is inadequate for the necessary operations. May I request the Government to inquire into the needs of the town in this respect and help it with a suitable grant."

The Hon'ble BABU SALIGRAM SINGH said:—"The Financial Statement which has been placed before the Council is the first of its kind under the new Provincial Contract with the Government of India; and I must congratulate the Government of Bengal on the favourable terms of this Contract which is calculated to allow them greater financial autonomy than was the case before. It is to be hoped that, in the course of a few years, the advantage of the new Settlement will be more appreciably visible by the inauguration of more than one long-deferred reform in every department of the Administration.

"And now I wish to offer a few observations with regard to some of the reforms which the Bengal Government are in a position to carry out during the year. I find that provision is made for increase in the salaries of ministerial officers and for the grant of subsistence allowances to apprentices, to the extent of four lakhs. This is a long-deferred reform, and I trust that the scheme embodying it will receive the sanction of the Government of India early enough to admit of its being launched during the present financial year. In this connection, I have only one suggestion to offer, namely, that the copyists who are at present paid by commission may be incorporated in the permanent ministerial establishment, so that they may beentitled to all the privileges of ministerial officers, including pension.

"Another equally valuable reform provided for is, the increase in the number of Sub-Deputy Collectors, for which purpose a sum of rupees one lakh is budgetted. No doubt the number of Sub-Deputy Collectors badly require to be increased, for at present this useful class of public servants are overworked, and relief is needed as much in their interest as in the interest of efficient work. But in my humble opinion not only the number of Sub-Deputy Collectors requires to be augmented, but their prospects also require to be bettered. As things stand at present, even long continued and approved meritorious service does not always entitle a Sub-Deputy Collector to rise to the rank of a Deputy Collector. I submit that such a state of things is apt to damp the energies of this class of public servants, who are generally recruited from the same class and after the same test as the Deputy Collectors; and I would therefore suggest that Government should reserve a certain number of appointments every year in the Provincial Executive Service to be filled up by deserving Sub-Deputy Collectors.

"Then as regards the large number of new Sub-Deputy Collectors and Deputy Collectors who are to be appointed during the year, I believe that Government is not unaware of the murmur of discontent which prevails among certain sections of the population of these Provinces, who are not adequately represented in these branches of the public service. I hope and trust that the opportunity thus offered by the large number of new appointments, which

will be made by nomination during the year, will be availed of by the Government to equalise, so far as it may be possible, the proportion of the different sections of the various communities in the Provincial Executive Services.

"Of the several projects of public utility proposed to be aided or started during the financial year upon which we have just entered, and for which the sum of rupees five lakhs is assigned by the Government of India, I regret to find that there is not one in which the Province of Bihar is directly interested. The omission is probably accidental, but at the same time I feel bound to urge the claims of the Province which I have the honour to represent, for an adequate share of the grant for projects of public utility.

"I find from the statement which has been placed before us that out of an allotment of three lakhs and twenty thousand in 1903-1904 for plague expenditure there was a saving of rupees two lakhs and sixty-three thousand. It means that more than three-fourths of what was budgetted for Plague expenditure during that year remained unspent, and this, in the face of the severe epidemic of plague in 1903-1904, requires some explanation. Whatever the explanation may be, the melancholy fact remains that the plague, which, within the Lieutenant-Governorship of Bengal, is principally confined to the districts of the Patna Division and to Monghyr and Bhagalpur in the Bhagalpur Division, shows no signs of abeyance from year to year; and instead of any portion of the allotment for plague expenditure remaining unspent, one would think that a larger allotment was necessary to fight this unwelcome visitor who threatens to stay. I would suggest that the bulk of the amount budgetted for Plague expenditure should be divided between the Commissioners of Patna and Bhagalpur, and they should be directed to see that the money they receive is divided between the several districts under their charge, according to the severity with which each may be affected. The actual administration of this fund for measures of prevention or relief may be left to Municipalities, District and Local Boards, and to such voluntary agencies as exist or may be formed hereafter for the purpose."

The Hon'ble MR. APCAR said:—"I have only a few remarks to make and will do so as briefly as possible.

"I had occasion last year to refer to a memorandum written by Mr. Lees on the improvement of the Waterways of Bengal, with his estimate of the probable cost; since then, the Chamber of Commerce has recently been favoured with a copy of a letter from Mr. Stevenson-Moore on the subject, which is under careful consideration and to which a reply will be sent in due course. I mention this matter, because I think it most important, in the interests of the trade of Calcutta, that the Government should take it up seriously, and I have no doubt Your Honour will give it the attention it merits.

"I see provision has been made for an additional Judge of the High Court. The commercial community have been incessant in their recommendation for appointment of Additional Judges and will appreciate the provision that has been made, but I would press for further additions by way of short-hand writers and typewriting machines to expedite the work of the Courts. I may say every Merchant's office employs shorthand-writers and uses typewriting machines. We find them a great saving of time and trouble, and, consequently, money. In a department which returns the Government such a large profit, I think suitors are entitled to ask that it should be equipped with modern appliances for expediting the work.

"The Holwell Monument has cost the Government a little short of Rs. 29,000. Might I suggest, Sir, that a trifle be added to the cost by providing proper railings round the statue of Sir Ashley Eden, which was removed from the present site of the Holwell Monument and which is left in an incomplete and untidy state."

The Hon'ble MR. EARLE said:—"The Hon'ble Dr. Asutosh Mukhopadhyaya and the Hon'ble Babu Bhupendra Nath Basu have both made observations in regard to the Provincial and Subordinate Educational Services, and have asked that the prospects and position of members of those services may be improved. In making these remarks, both these Hon'ble Members have, I think, been a little ungrateful and a little unmindful. On the 28th March, 1903, I stated in this Council that the question whether it was practicable to improve the prospects of the Provincial and Subordinate Educational Services was at that time under the consideration of the Lieutenant-Governor; while, again, so recently as the 10th of February last, I stated that this question had been referred by the Lieutenant-Governor to the Government of India and was under the consideration of that Government. I stated that it was inexpedient, at that time, to make any pronouncement regarding the views of this Government on the subject; but that information would be supplied at a later date. I can say no more on the present occasion. I can only say that I hope that the scheme which has been submitted to the Government of India will be sanctioned by that Government, and that, if so sanctioned, it will give satisfaction.

"Both the Hon'ble Members above referred to have also mentioned the subject of the reduction which has been made in the number and value of Junior and Senior Scholarships awarded as the result of the Entrance and F.A. Examinations of the Calcutta University. In regard to this subject, I stated in this Council on the 14th of August last that the reduction referred to had been made at the instance of the Government of India, who, in reviewing the Report on the Progress of Education in India from 1892-93 to 1896-97, had observed that the amount spent on these Scholarships in Bengal had exceeded the 2 *per cent.* limit fixed by the Education Commission of 1881. Now that efforts are being made in so many directions to make improvements in respect of education, it may be found possible to re-consider the subject. The matter will therefore be further examined.

"The Hon'ble Babu Bhupendra Nath Basu has observed that the expenditure in respect of Education budgetted for the year 1904-1905, *viz.*, Rs. 5,76,000, is totally inadequate for a population of 75 millions of people. I quite agree with the Hon'ble Member that it would be very much better if it were possible to make this figure very much larger than it is. He seems, however, to have entirely overlooked the fact that the total expenditure in the year 1901-1902 was Rs. 42,73,000; that it rose in the year 1902-1903 to Rs. 48,60,000; and that again in the current year there is a further increase of 5 lakhs and 16 thousand of rupees. These figures prove conclusively the increased attention that is being paid by Government to Education in all its branches; and it is a little surprising to find that no acknowledgment of this fact is made. The Hon'ble Member also said that far too little money was spent upon primary education. I entirely agree with him that the amount so spent in this Province is inadequate. The Hon'ble Member has, however, taken no account of the fact that it is barely 18 months since Government made a grant of 4 lakhs to District Boards for expenditure on this class of Education. The Government of India has made a special grant of 10 lakhs to this Government for expenditure on Educational purposes; and no less than the large sum named has been assigned entirely for primary education. As, however, I have indicated above, a much larger expenditure under this head is still required; and I hope that before long it will be possible to make further allotments for the purpose.

"I now turn to the remarks made by the Hon'ble Rai Tarini Pershad, Bahadur. The Hon'ble Member observes that a sum of Rs. 1,14,000 is provided in the revised estimate for 1903-1904 under the head of 'Land Records and Agriculture,' and that this amount is described on page 7 of the Financial Statement as providing for 'Temporary Establishments in Districts.' He asks for an explanation on this point. The reply is, that the increased expenditure was incurred in respect of temporary establishments required for the purpose of re-writing the Land Registration Registers in the districts of Cuttack, Balasore and Puri.

"The Hon'ble Member notices that, under the head of 'Scientific and Other Minor Departments,' the grants for agricultural and silk experiments have been increased. He asks what are the amounts of these grants and what will be the nature of the experiments. The amounts of the grants for agricultural and silk experiments are Rs. 84,500 and Rs. 6,500, respectively. The agricultural experiments include those to be conducted in connection with crops at the various Government farms; and it may be noted, in this connection, that a new farm is being opened in Cuttack in order to demonstrate the value of Irrigation. Rupees 50,000 will be spent on cattle-breeding at Pusa; a sum of Rs. 7,000 represents a contribution to the Indian Tea Association for the conduct of research work in connection with the cultivation and manufacture of tea; while Rs. 4,300 will be spent on experimental crop-cuttings. The silk experiments are being conducted at Berhampore and Rampur Boalia, and are in connection with the rearing of cocoons and the selection of seed.

"The Hon'ble Member asks what portion of the Rs. 5,55,000 provided under the head 'Land Revenue,' sub-head 'Management of Government Estates' is for expenditure in connection with Agricultural Banks. The reply is that no special provision has been made this year for the purpose indicated, because the necessary expenditure will be met from the lump sum of Rs. 5,55,000 above referred to. There will be no lack of money for these banks.

"The Hon'ble Member has made some remarks in regard to primary education. He acknowledges with gratitude the assistance which Government has already afforded to the Bhagalpur Division in this matter; but he asks for more. He notices that the new Provincial Settlement does not take into account any contribution which the Government of India may find it desirable to make towards the expenditure rendered necessary by reforms which are in contemplation in the administration of Education. He, therefore, asks that, if any such special grant is made, the claims of the Bhagalpur Division may not be overlooked. A reply to these observations is, perhaps, scarcely necessary, because, should any such grant be allotted to this Province, the needs of each Division will, of course, be considered in the same manner as when the allotment of four lakhs for primary education was distributed in 1902.

"The Hon'ble Member next touches upon the subject of guru-training schools. He observes that the teachers in these schools are not duly qualified, and that their remuneration is inadequate. He, therefore, suggests that larger sums should be spent on the salaries of these teachers, or, if funds are not available for that purpose, that one guru-training school should be opened at the head-quarters of each district, instead of, as at present arranged, at the head-quarters of each sub-division. I dealt with this subject at some length in reply to questions lately put by the Hon'ble Babu Bhupendra Nath Basu; and I need not, therefore, say much under this head on the present occasion. I have already pointed out that the pay of the Head Pandits has recently been considerably increased; and it is too early as yet to say that even this increased scale of pay is insufficient to attract suitable candidates. However that may be, it is the intention of Government to have a properly-equipped training school at the head-quarters of each sub-division; and, for that object, no trouble or money will be spared.

"The Hon'ble Member then repeats the complaint which he made last year, *viz.*, that there is no Technical School in the Bhagalpur Division. He quotes the reply which I gave to him last year; *viz.*, that statistics went to show that there was not much demand for technical education in that Division, but that Government would be willing to give careful consideration to any fresh application which might be made for the opening of any such school. It is significant that, notwithstanding the intimation thus given, no such application has been received during the past year. However that may be, the Lieutenant-Governor is now willing to take the initiative, and to ascertain for himself if there is any chance of opening a school of this character in the Division. The Commissioner will, accordingly, be asked to report upon the subject without delay after consulting the Director of Public Instruction."

The Hon'ble MR. SHIRRES said:—"The description which the Hon'ble Dr. Asutosh Mukhopadhyaya has given of the Financial Settlement is correct, and I am very glad to find that both he and the Hon'ble Babu Saligram Singh agree with the Government that the Settlement is one upon which we are to be congratulated. The Settlement is indeed one upon which both the Local Government and the Government of India are to be congratulated. I have nothing to correct in what the Hon'ble Dr. Asutosh Mukhopadhyaya said with regard to it, although perhaps I can make matters a little clearer. He described the Settlement as a permanent one. That description requires some qualification, and when I introduced the Budget I carefully avoided the word 'permanent,' and described the settlement as one which would run no longer for a fixed period of five years as formerly, but for an indefinite period. It will, however, be as permanent as the Local Government should wish it to be. It will continue until and unless, over a considerable series of years, it is found to be unfair either to the Local Government or to the Government of India. Obviously, however, in order to justify any interference, there must be some criterion of unfairness, so that it may be shown that some unfairness exists. The criterion laid down is this:—The Government of India examined the rate of expansion of the different provinces and found that there was an average rate amounting to so much. It was considered that the older Provinces should not be quite so favourably treated as the newer ones, and the rate of expansion for Bengal works out at a little less than the average. After a considerable number of years, if we find that we are not expanding at that rate, we can go up and ask for a revision of the Settlement. In the same way, if we expand at a much faster rate than was anticipated, the Government of India may ask us to give up something. There is also a possibility of a Provincial Contract having to be upset owing to some national emergency, but that is one of those things which we cannot possibly help.

"My friend, the Hon'ble Babu Bhupendra Nath Basu, made some remarks about the Settlement, but I did not have the advantage of knowing what points he would take up, and I was also unable to appreciate clearly the difficulties which he felt. I am not therefore quite sure that any explanation that I make will remove these difficulties. I may observe first of all that the fact that the revenue of the Local Government under the new Settlement is either increased or decreased does not necessarily show that the Settlement is favourable or otherwise. In the present Settlement, Customs had been made an Imperial head. That of course reduces our expenditure and therefore also the income made over to us to meet that expenditure. He referred to a sum of Rs. 61,00,000. As far as I can make out, he has referred to Rs. 60,71,000, by which the receipts from the expanding revenue are reduced. Against that he put the lump grant of Rs. 49,06,000; and in this way he went on to show that the Local Government was Rs. 11,65,000 to the bad. This is scarcely a correct way of estimating the contract. If, however, we do estimate it in that way then we should consider that under the last contract, we had to pay 14 lakhs to the Government of India, which we do not pay to that Government now. So, if we go upon that, we find that instead of Rs. 11,65,000 to the bad, we are more than Rs. 2,00,000 to the good.

"I am unable to follow his remarks about the Improvement Scheme because at present we have no definite proposal before us, and we cannot usefully discuss the matter until this is the case.

"Next he referred to the plague expenditure in Calcutta, and complained that the policy pursued by the Government of Bengal was not sufficiently active. As a matter of fact, the difficulty in regard to the preventive measure in connection with the plague had been to carry the people with us. I think Government is always willing to go as far as we can, taking the people with us. We have never been deterred by the question of expenditure. The Hon'ble Member also asked us to give a grant to Calcutta. He said that the Corporation of Calcutta were able to bear plague charges out of the current revenue, and that they were able to pay their servants higher salaries than either the Government of India or the Local Government could afford to give, and therefore we ought to give them a grant. I confess that I am unable to follow this reasoning."

"Next he referred to the Housing Scheme. This scheme is still in the air, but I may explain that the point of view from which the Government look at it is purely and simply a financial one. There are large numbers of Government servants who are transferred to Calcutta in the ordinary course of administration, and these officers suffer pecuniary loss chiefly because of the difficulty of providing themselves with houses. The Government had to consider, if it was going to remedy that state of affairs, whether it would be cheaper to give them house allowances or to build houses for them. If you give a house allowance in each case, the whole of the allowance is lost; but if you build houses the loss to Government is the difference between the rent actually received and what would be a fair return on the outlay, and it was found by actual calculation that the loss to Government through granting separate house allowances would be considerably greater than if Government built houses of its own for its officers.

"Then as regards Assistant Surgeons, the Hon'ble Member may remember that about 5½ years ago—I think in October 1898, a senior grade was added to the Service, which was to consist of 10 *per cent.* of the whole number of Assistant Surgeons. This was done only 5½ years ago, and unless some reasons are given for reconsidering this subject, I think it will be difficult to induce the Government of India to re-open the question.

"Then the Hon'ble Member referred to the great ravages caused by Malaria, and I agree with him that it is hardly possible to overestimate this evil. I should, however, inform you that something is being done in this direction at present. Inquiries had been made from time to time by specially deputed officers which have resulted in a certain amount of increase of knowledge. In recent years Medical science, and especially the science of Bacteriology, has made great strides, and it was thought that an enquiry by a qualified officer might clear up many points. A special officer was accordingly deputed to make inquiries into this matter, but we have not got his report as yet.

"As regards preventive measures to be taken in malarious areas, I think the Hon'ble Member has overlooked the special Act which was passed a few years ago to provide for drainage. It takes a long time to work out schemes under it. But I may inform him that there are four schemes at present under consideration, three of which are under that Act, and one is under the special sections of the Municipal Act. They have been worked out at a great expense and at the cost of a great deal of labour. Two of the schemes are for the improvement of places which would come within the definition of 'Riparian villages in the neighbourhood of Calcutta.' The first relates to the municipal area immediately north of Calcutta in the direction of Dum-Dum and Barrackpore. The other relates to the Magrahat and Karampooker swamps in the Diamond Harbour subdivision. If Malaria is to be combated by drainage, a certain procedure has to be followed under that special Act, and the people who wish such reforms to be carried out should do their best to examine the localities in which they are interested and should busy themselves in getting up schemes and showing what can be done.

"One of the points which the Hon'ble Member made was to the effect that we are not able to continue the grant of Rs. 5,00,000 for Road Cess this year, and that this shows that we have made an unfavourable contract. This conclusion, however, I cannot admit. Under the five years' system, at the end of five years, the Local Government had always to surrender a certain amount of revenue it had accumulated. As a matter of fact, periodically we had to give up a certain amount, and the more favourable the settlement the more we had to give up at the close of it. Supposing the whole of the revenue for five years' settlement were non-expanding, then at the end of five years the Local Government would give up nothing. If it got a very favourable contract, then at the end of five years it would be in a very flourishing condition and it would have a very large revenue which the Government of India would take away. This has been the system which has been hitherto followed. So it comes about that we have had to give up this Rs. 5,00,000. I may observe also that in the course of the correspondence regarding the Financial Settlement the Local

Government raised many claims, some of which were allowed, while others were not allowed. This grant of Rs. 5,00,000 to the District Boards was made only on three occasions, and the Government of India would not allow it as being absolutely necessary. The fact that we were cut down at the end of five years is what has always happened at the previous settlement; such a cutting down was an essential part of the system, and it does not prove that the new settlement is unfavourable to the Local Government.

"Then again the Hon'ble Member raised the question which has been threshed out on several occasions about Road Cess being spent on Education and other purposes. He alluded very vaguely to 'vanished millions'; but I may read to him the answer which was given by the Hon'ble Mr. Risch on the 2nd of April, 1902, in answer to a similar question which was then raised—

'The Government is unable to find, from the letter cited or from any other pronouncement of Sir Alexander Mackenzie, that in his time the burden of maintaining Provincial roads rested with the District Fund, or that the proceeds of the Road Cess were devoted to the cost of maintaining dispensaries, veterinary schools, and other educational establishments.

'The Government is also unable to find, from the letter cited or from any other declaration of the Government of Sir Alexander Mackenzie, that he gave any of the assurances mentioned in the question.

'It is, however, the case that in the time of Sir Alexander Mackenzie it was represented that certain District Boards, in the exercise of the discretion given to them by the Local Self-Government Act, were spending part of the proceeds of the Road Cess, as well as other funds at their disposal, on schools, dispensaries and other objects beyond the scope of section 109 of the Cess Act of 1880. The Government of Sir Alexander Mackenzie therefore explained by circular orders that the Local Self-Government Act of 1885 had repealed the restrictive section (109) of the Cess Act, had merged the Road Cess in the District Fund, and had added pounds, education, medical relief, sanitation, vaccination, famine relief, the destruction of noxious animals, fairs, and agricultural exhibitions to the list of objects to which the fund might be applied. At the same time Sir Alexander Mackenzie expressed his opinion that it was desirable that, as a general rule and gradually as might be practicable, an amount approximately equal to the proceeds of the Road Cess should be devoted by District Boards to the objects of the Act of 1880.

'This expression of opinion, although involving no legal obligation, has been on the whole acted upon by District Boards in the exercise of their discretion and the powers of self-government given to them by the Legislature.

'At present, no Provincial road is maintained by a District Fund unless the District Fund is in receipt of a grant from Provincial Revenues at least equal to the estimated cost of maintaining the road. Also, the returns for 1900-1901—the latest completed year for which figures are available—show that the total expenditure of District Boards on roads and other means of communication, the drinking-water supply, drainage, and other objects within the limited scope of the Cess Act of 1880 was more than 45 lakhs, that is to say, at least 2 lakhs more than the total proceeds of the Road Cess.'

"The Hon'ble Member's remarks were founded on the supposition that this section of the Cess Act is still in force, but as a matter of fact, it has been repealed.

"I hope I shall be able to remove a difficulty which has been felt by my Hon'ble friend, Babu Saligram Singh. He complains that of the five lakhs which were given for special objects, no part has gone to Bihar. Bihar, however, includes the Divisions of Patna and Bhagalpur, and out of the first item of Rs. 37,000 in the list it is proposed that Rs. 8,000 should go to Muzaffarpur and Rs. 6,000 to Bhagalpur. Then lower down you will find an item of Rs. 17,000, of which between Rs. 7,000 and Rs. 8,000 will go to Bankipore. Then I think Bihar may take some credit for the Rs. 50,000 for the hospital at Kurseong, which is not for the benefit of the people living in Kurseong alone: it is for the benefit of those living in other parts, and people can get there very easily from Bihar by using the Bengal and North Railway; also there is a sum of Rs. 25,000 for the equipment of hospitals and dispensaries, of which no doubt the people of Bihar will get their portion; so that it will be seen that this money is to be distributed throughout the whole of the Province, and there can be no doubt that the people of Bihar will get their share of it.

"I have some further remarks to make with reference to what was said by the Hon'ble Maulvi Siraj-ul-Islam, Khan Bahadur.

"Reference has been made to the savings under the head of 'Preventive Measures against Plague' in the last two years, and it has been suggested that the expenditure incurred in Calcutta should have been borne by the Provincial Government, and that in view of the ravages of plague in Bihar no savings should have been allowed to accrue. As regards the first point, it may be noted that the Government never undertook to reimburse the municipalities for the expenditure incurred by them under this head. When the expenditure of a municipality has been so heavy as seriously to interfere with its ordinary expenditure, the Government has assisted it, and a few years ago a grant of 2½ lakhs was made to the Calcutta Corporation; but at the time Government declared that it had no intention of repeating the grant, and that in future Calcutta must bear its local charges like any other similar body. As regards the second suggestion that no savings should have been allowed to accrue, it is to be remembered that when the budgets were drawn up the Government did not know how severe the outbreaks of plague would be. Had Bengal suffered as severely as Bombay or the Punjab, probably the whole allotment would have been spent. Had such a misfortune occurred, this Government would have been ready for it. It did not occur, and the money then became available for expenditure on other objects.

"I now come to deal with the remarks of my Hon'ble friend, Rai Tarini Pershad, Bahadur. He wishes to know the explanation of the difference between Rs. 34,54,000, the budget estimate under the head 'Charges of District Administration' for 1904-1905, and Rs. 31,47,000, the actuals under the same head for 1902-1903. The difference is Rs. 3,07,000, but of this the sum of 1½ lakhs is for increase of salaries of ministerial officers, and Rs. 74,000 for a larger number of Sub-Deputy Collectors and Deputy Magistrates. The balance to be explained is Rs. 83,000 which is made up as follows :—

	Rs.
Temporary establishment for land acquisition	23,000
Increase in the net charges on account of partition because of smaller recoveries	22,000
Process-serving establishment	10,000
Additional grant for record-rooms	4,000
Normal increase of establishment	24,000
Total ...	83,000

"The next question is that of Water-supply in the mufassal. My Hon'ble friend, who represents the municipalities of one Division, urges Government to deal firmly with the District Boards and insist on their spending a certain minimum sum on the improvement of water-supply. Perhaps it would be more satisfactory if those who are directly interested would induce the District Boards to take action on their own initiative. The local zamindars might also greatly assist by relaxing the severity of the conditions imposed on those who wish to dig tanks and wells. As you are aware, however, the Lieutenant-Governor has already interested himself in the matter, and has expressed the hope that when the Government comes forward, either directly or through the Local Boards, the public will do so also. I am now authorised to say that if in any case the local authorities will contribute one-third of the cost and the public another third, the Government will contribute the remaining third up to a maximum of Rs. 5,000 for any one district and of Rs. 50,000 for the whole Province.

"The next point which I need notice has to do with the increase of the salaries of ministerial officers. It is suggested that Government should not wait for any applications for relief, but should of its own motion make an early and thorough inquiry into the requirements of the different classes of

ministerial officers. I am glad to be able to reassure the Hon'ble Member on this point. The inquiry which he suggests has already been made, and all that is now necessary is to place the results of it before the Government of India.

"I pass over the question of plague charges, which I have already dealt with, and come to the request for a special grant to the Bhagalpur Municipality to enable it to bear the charges on account of the operations for the prevention of plague. To that request the reply is, that such an application cannot be entertained until the actual expenditure is known and the effect upon the financial position of the municipality has been considered. In other cases, when the expenditure has been so heavy as to seriously affect the ordinary administration of the municipality, the Government has given some assistance, and probably it will do so in this case also if the circumstances are similar."

The Hon'ble the PRESIDENT said:—"I shall not detain the Council long with any remarks I have to make in regard to the Budget. The criticisms which have been made in respect of the Financial Statement by certain Hon'ble Members have been in most cases answered by other Hon'ble Members immediately following them; and I think that all explanations necessary have been given finally by the Hon'ble Mr. Earle and the Hon'ble Mr. Shirres on behalf of the Government.

"I do not consider it necessary to make any remarks in regard to the criticisms which have been made on the policy of the Government of India. Certain recent resolutions of the Government of India and their alleged attitude towards the Corporation of Calcutta have been referred to. I acknowledge the absolute necessity for allowing the fullest freedom of speech on an occasion of this kind, and I should regret very much to put any closure upon any remarks of any sort in a debate on the Budget; but if I had any inclination at all to refer to certain points as being irrelevant to this discussion, it was in respect of those remarks and criticisms levelled against the Government of India. We are not here either to criticise or to defend that Government.

"I will now pass on to deal with one or two remarks of a general character which have been made by one or two Members. The first of these is in regard to the Improvement Scheme of Calcutta, remarks on which were made by the Hon'ble Dr. Asutosh Mukhopadhyaya and the Hon'ble Babu Bhupendra Nath Basu. The first of these Hon'ble Members spoke with great admiration of the scheme which had been prepared for the consideration of the Government of India. I regret to say that I am unable to speak of it in such terms or any terms at all; for it is an absolutely unknown quantity. We have no doubt submitted our recommendations, but we are not going to say what these recommendations are, or to propound any scheme either for admiration or criticism by the public until we have heard what the Government of India have to say on the matter. The Hon'ble Babu Bhupendra Nath Basu tried to draw us on the subject, and to obtain information from us, by his criticism of the scheme. We shall not tell him whether what he has heard is true or not; but we shall keep all these things deep down in our bosoms as Official Secrets.

"I may here remark this much that we have already received very substantial intimation of the sympathy of the Government of India with the desire to do something for the improvement of Calcutta, in what is well known to all, *viz.*, the grant of Rs. 50,00,000. I may, however, add, as a caution, that the letter which announces that grant also says that this is subject to the condition that a satisfactory scheme is proposed, and if a satisfactory scheme is not proposed the grant will be withdrawn and re-credited to Imperial Revenue; so that, so far as our position stands in regard to the scheme, we are exactly where we were before, looking into the misty and unknown future. In regard to this misty and unknown future of the improvement of Calcutta I will say this that I had the privilege and pleasure of consulting gentlemen who represent every phase of opinion in Calcutta; and I have not the slightest hesitation in saying that while we shall go forward with something approaching courage into the future in regard to this scheme, we shall owe that courage to the fact that I am sure that we shall carry the

entire sympathy of all classes of the community who are deeply interested in the matter, not only from a selfish but from a altruistic point of view.

"I am rather surprised to find, even though it comes from a resident of Calcutta, as the Hon'ble Member described himself, such a complaint as that we have made no grant at present to the revenues of the Corporation. I am surprised because I am bound to say that he did establish the necessity for the grant; and when we have open mouths all over the Province, clamouring to be filled, I do not see why we should turn to the mouth which is, so to speak, closed in respect of this grant. Furthermore, I should like the Hon'ble Member to refer to the Budget and see what this Province does for Calcutta, and all the items running to six figures of expenditure solely in Calcutta and for the advantage of Calcutta, which this Budget contains. I do not think it can be said for a moment that we neglect the Provincial Capital, neither can it be said that the Government of India neglects the Imperial Capital.

"There is one other remark made by the Hon'ble Member which I should like to refer to, although it has already been commented upon by the Hon'ble Mr. Shirres, and that is with reference to what he said about the Government's proposals to supply houses for its officers. I must say that one cannot help being amazed at the attitude which the Hon'ble Member takes up in regard to this matter. The Hon'ble Mr. Shirres, in replying on this point, confined himself to simply saying that it is to the interest of the Government to decide which way is the best for compensating its officers for the extra charge involved in coming to Calcutta; but I should like to go a little further and ask whether the Hon'ble Member was serious at all when he proceeded to criticise us for providing houses for our officers? Will he point to any large business firm or house in Calcutta which is not doing the same thing? Is it not quite a common thing for large firms in the City to provide houses for their own permanent officers? And when we have permanent offices, always filled by officers of the same rank, surely we are entitled to do something of the same kind. I think it is really almost too amusing to hear an Hon'ble Member stand up and tell us that by so doing we are entering into competition with owners of houses in the matter of house-rent. I know by my own personal experience, as a man coming to Calcutta and entering a new house, I found a rapacious landlord who desired to put upon me 50 *per cent.* more rent than had been paid the year before, simply because I was too late to be able to choose my own place of residence. I am perfectly convinced of this that there is not one reasonable person or firm who would not do for his own permanent servant what the Government, I will not say has done, or is doing, but proposes to do.

"The Hon'ble Member was very dolorous in regard to the settlement which has been made between the Government of India and this Province. He would not congratulate us. He thought that we were living in a fool's paradise of our own, and were far too pleased with the very small mercies which had been extended to us by the Imperial Government. I shall not answer him; because his remarks were anticipated by the Hon'ble Dr. Asutosh Mukhopadhyaya and were also answered by the Hon'ble Rai Tarini Pershad, Bahadur, and the Hon'ble Babu Saligram Singh. I am sure that the answer of these three non-official Members will be far more conclusive than anything I could say in regard to the favourable nature of the settlement which has been made. If the Hon'ble Member thinks that I should not be very glad to take more money than the Government of India gave me, then he has altogether mistaken my position. What I am prepared to say was said by the Hon'ble the Finance Member of the Government of India—that we have been treated with reasonable liberality, and have therefore no ground for complaint.

"I should like to say one word more before passing from the general criticism that has been made, and that is, that I welcome these criticisms as indicating, in the first place, general satisfaction with the Budget, and, in the second place, general accord with the policy of the Government, and general willingness to help. And I may say that from the more important suggestions that have been made down to the very smallest which have been

made, none will escape notice or fail to receive due attention. In that connection I may say especially that the small favour asked for by the Hon'ble Mr. Apcar in regard to the statue which now so fittingly holds its place opposite the building which we now occupy will certainly be granted.

"I do not think it necessary to say anything to this Council now in regard to the important matters of the improvement of the number and status of Deputy Collectors, Sub-Deputy Collectors and ministerial officers. A great deal has already been done in the matter as is shown by the fact that so much money has been set aside for these purposes, and that schemes have been framed and submitted to the Government of India. I may, however, at once say that there is nothing that has fallen from any Hon'ble Member of this Council in regard to the desirability of improving not only the pay but also status of any of these classes of officers which has not my cordial sympathy; and these matters will receive the closest attention from the Bengal Government during this year.

"I think it is hardly necessary either to say anything in regard to the improvement of the Calcutta Police to which reference has been made, or in regard to the expenditure which must arise in respect of Police, Education and Irrigation, in regard to which the Government of India has promised us assistance. This is one feature of the settlement which, permanent as it is, is of a satisfactory character, *viz.*, that when this expenditure, which we cannot now estimate and which depends upon circumstances with which we are not yet well acquainted, has to be met, the Government of India is prepared to help us so long as we do what we can to help ourselves. I know there will be great expenditure in regard to Police necessary in this Province. I know also and cordially admit that there will be great expenditure in regard to Education in all grades in this Province, and we are prepared, so far as our funds admit, to undertake that expenditure, and we have the promise of the Government of India to help us as far as possible. I do think, however, that there has been a little failure to acknowledge the progress which has been made in regard to Education during late years, and also to acknowledge the position which we now occupy in regard to our future policy in respect of Education.

"There is one other matter to which I would like to refer in the Hon'ble Babu Bhupendra Nath Basu's speech, and that is his remarks in regard to Agriculture. I am not perfectly certain here again whether the Hon'ble Member ought to be taken quite seriously; because he informs us that the establishment of the College at Pusa is as nothing as compared with the necessity for proceeding at once to teach Agriculture in schools. Now I am perfectly sure that the Hon'ble Member, if he takes the trouble to reflect for a moment, will admit that you cannot possibly teach Agriculture in schools unless you have the teachers. It is not only that a man must know Agriculture, it is that he must be able to teach Agriculture. The first thing we are aiming at is to get a proper establishment for our demonstration farms throughout the province, and for our teaching in Schools and Training Colleges, from Pusa Agricultural College. That is the first thing they are going to give us. I went up to Pusa and had a conference with Mr. Mollison, Director-General of Agriculture to the Government of India, and other officers; and the conclusion we came to was that it would be a very foolish thing to push forward either in establishing demonstration farms or in appointing teachers for Agricultural Schools, so long as we had not the proper agency to carry on this particular work regarding Agricultural improvement. Now I promise that, as soon as we can get men, we will push forward on the lines the Hon'ble Member has indicated.

"I do not think it is necessary for me now to say anything more in regard to a subject which has attracted so much of the attention of the Hon'ble Rai Tarini Pershad, Bahadur, *viz*, the subject of water-supply in the interior. What has been said by the Hon'ble Mr. Shirres already answers him in regard to this matter. I welcome thoroughly and cordially his suggestions, and I think the proposal we have made that we should extend our help as far as possible, for the present up to half a lakh of rupees, indicates that we have sympathy with

him in regard to this matter. And I do trust that throughout this Province, as has been my experience elsewhere in India, it will be found that the Local Government and the local bodies and the local public will all be found working together in regard to measures of this kind. I must say that I have found, since I came to this Province, instances of liberality in regard to great matters of public convenience of which I had not the very least anticipation, and I have no hesitation in saying that I have the most cordial confidence that in the future when the people understand where our policy is going and what we intend to do, and how we expect them to work alongside of us, we shall have no difficulty in securing their cordial co-operation.

"In regard to one other matter affecting local bodies, I should like to say this. The Road Cess and the Road Cess Valuation—and these are great questions which are of vital importance—are receiving and will receive the closest attention. I had no sooner come to this Province than the senior officers of this Province brought these matters to my notice as requiring attention; and they are receiving attention and will be threshed out as thoroughly as it is possible to do during the year on which we have entered.

"I have again to thank the Council and Hon'ble Members who have contributed to this discussion for the assistance they have given us by their suggestions, and for the kindly manner in which they have received the Budget, which it has been the good fortune of my friend, the Hon'ble Mr. Shirres, to present to the Council."

The Council was then adjourned *sine die*.

Approximate position lat. 30° 34½′ N., long. 121° 7′ E.

Thick weather prevailed at the time, so that no bearings were obtained, and the position, depending on the reckoning, must be considered doubtful.

It must also be considered doubtful whether what was seen was a breaker over a danger, or merely an overfall caused by a tide rip over part of the foul ground.

Lat. 33° 42′ *20″* South.
Long. 137° 15′ *15″* East.

Mariners navigating Spencer Gulf north of Tipara Shoal are cautioned against making too free with the western shore, as between Franklin Harbour and Point Lowly the shoal water extends in several places from one and-a-half (1½) miles to four (4) miles from the shore line, which in many places is very low and often distorted by mirage.

Vessels beating up or down the Gulf against strong head winds are therefore cautioned to keep about the middle of the Gulf, towards the Middle Bank Lightship, which may be passed close to. They may also anchor anywhere north of Tipara Shoal and await a slant of wind.

The exact position of this bar is not known, but the depths over its southern part are from 17 to 18 feet, and over the northern part from 20 to 22 feet.

The wharves in the harbour are difficult of access on account of the cross currents, and silting has reduced the depth alongside them all, so that now only 14 feet can be relied on.

Vessels are not allowed to navigate the Klang river, and they cannot use Lúmut strait.

Approximate position, lat. 3° 0′ N., long. 101° 23′ E.

DEPARTMENT OF LAND RECORDS AND AGRICULTURE, BENGAL.

Forecast of the Rabi Crops of Bengal for 1903-1904.

Explanatory.—This forecast furnishes estimates of the area and outturn of the *rabi* crops, with the exception of wheat, cotton, oilseeds, and sugarcane, for which separate forecasts are issued. The crops included in this forecast are summer rice, barley, gram, tobacco, poppy, and other food and non-food crops which are harvested between February

and April. These latter embrace the important pulses, *rahar*, *kalai*, *mung*, peas, lentils, *khesari*, and *kurti*, also buckwheat, *cheena*, potatoes, yams, melons, *chillies* and other spices, as well as oats and *rabi* vegetable crops.

2. *The character of the season.*—The heavy October rains favoured the retention of moisture by the soil for the *rabi* crops. In November light showers were obtained all over the Province except in Bihar, where, however, the bulk of the *rabi* crops is raised. In December there was hardly any rain. The crops in Bihar were much benefited by the January rains. Light showers were also obtained in January in Chota Nagpur and North Bengal. In February the rainfall was more copious and general. On the whole, therefore, the season was favourable for the growth of crops.

3. *Area sown.*—Excluding the areas under wheat, oilseeds, cotton, and sugarcane, the normal area sown with the various *rabi* crops in the Province amounts to, according to the District Returns, which are summarised in Appendix I, 10,053,300 as against 10,071,800 acres, which was the normal area shown last year. The change is due to the revision of estimates of normal area under the crops under report by the District Officers of Midnapore, Pabna, Tippera, Darbhanga, Bhagalpur, and Ranchi. The area actually sown this year is estimated at 9,606,200 against 9,242,200 acres sown last year.

4. *Outturn.*—From Appendix I it will be seen that Darjeeling and the Sonthal Parganas expect a crop of over 100 per cent. Six districts, viz., Rajshahi, Rungpur, Backergunge, Pabna, Gaya, and Malda expect 100 per cent. crop. In thirteen districts the estimates vary from 90 to 99 per cent., and in twelve others between 80 and 89 per cent. Eleven districts anticipate a crop between 60 to 79 per cent., while Jalpaiguri expects an outturn of 51 per cent.

According to the estimate of the District Officers, the outturn for the Province, as a whole, amounts to only 87 per cent. of a normal crop as against 86 per cent., which was their estimate for last year. Considering, however, the favourable conditions that generally prevailed this year for *rabi* crops and specially for the summer rice, I would raise the general estimate to 90 per cent., and the estimate in the case of summer rice to 95 per cent.

5. *Gross outturn of summer rice.*—As shown in Appendix II the gross yield of summer rice for the Province may be put down at 2,923,800 cwt. as against 3,283,300 cwt. of last year.

CALCUTTA,
The 30th March 1904.

The decrease in the outturn is reported to be due to want of rainfall. I have been over most of the district on tour and find everywhere a large area sown in *rabi*, as winter rice could not be sown in many places owing to lateness of rains. The *rabi* crops in the north are the best I have ever seen, and are admitted by the raiyats to be very good, and in other places the crop is at least average to good. The mean pressure, temperature, etc., are deduced from the traces of the Barograph and Thermograph, and from eye-observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. Rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

o, overcast; g, gloomy; p, passing temporary showers; t, thunder; ⌿, lightning; ⌇, strongwind.

[Second Publication.]

The 11th April 1904.

No. 20.—Notification.—It is hereby notified for general information that the Lieutenant-Governor of Bengal proposes, under the provisions of sections XI and XII of Act V (B.C.) of 1864, to pass the following rules in modification of those now in force on the Calcutta Canals and Tolly's Nala with effect from 1st July 1904.

D. B. HORN,
Secy. to the Govt. of Bengal.

Revised Rules for the Calcutta Canals and Tolly's Nala.

The rules shall apply to the following navigable channels which are included under the designation "Calcutta Canals and Tolly's Nala":—

I.—The Circular Canal comprising the still-water canal between the Dhappa and Chitpur Locks and the New Cut Canal from Ultadingi to Dhappa Lock, together with its junction with the river Hooghly and the Orange Soorah at Dhappa.

II.—The Central Lake Channel from its junction with the Circular Canal at the Dhappa Lock to its junction with the Biddiadharee at Bamunghatta.

III.—The Nowbhanga khal, extending northwards for a mile from its junction with the Central Lake Channel below the Dhappa Lock.

IV.—The Soorah from its junction with the Central Lake Channel below the Dhappa Lock and extending to the fish market situated adjacent to, and to the west of, the Dhappa Inspector's residence.

V.—Tolly's Nala extending from a line drawn across the Nala 25 feet west of the Hastings Bridge at Kidderpore to the Biddiadharee river at Samookpota.

1. Every vessel on entering the Calcutta Canals or Tolly's Nala shall be liable to measurement for the purpose of ascertaining the tolls payable; in case of any reasonable doubt arising, the persons appointed by the Lieutenant-Governor to collect tolls and officers to whom such persons are subordinate shall have authority to again measure a vessel notwithstanding that it was measured on entering the canals.

2. Vessels for the purposes of the determination of tonnage shall be divided into two classes as below :—

Class I.—To include all vessels of the usual native types of build.

Class II.—To include all steamers, flats and barges, and other square built boats.

The net tonnage of every vessel, whether laden or empty, shall, for the purposes of Act V (B.C.) of 1864 and of these rules, be determined by the following measurements :—

Class I.—

A.—The product of one quarter the length of the vessel from stem to stern, measured along the water-line, multiplied by the interior greatest breadth of the vessel multiplied by the depth from the water-line to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which toll shall be levied.

B.—The measurement of the length is to be made in feet, rejecting inches; the measurement of the breadth and depth is to be made in feet and quarters of a foot, rejecting any remainder of less than a quarter of a foot.

C.—The maundage on which the amount of toll is calculated shall be reckoned to the nearest integral multiple of 12½ maunds, any remainder of less than 12½ maunds being rejected. In the case of boats exceeding 500 maunds by measurement, the maundage shall be reckoned to the nearest integral multiple of 50 maunds rejecting any remainder of less than 50 maunds.

D.—Provided that in the case of vessels which enter the canals at Chitpore, Kidderpore and Chetla empty, for the purpose of loading therein, the depth shall be measured from the line of usual immersion when fully loaded as visible on the outside of the vessel to the bottom (interior) of the vessel, and not from the line of actual immersion at the time of measurement.

Class II.—

For vessels of Class II the number of maunds obtained by the system of measurement prescribed for vessels of Class I, shall be increased by one-half. For vessels of this class above 5,000 maunds measurement the maundage shall be reckoned to the nearest integral multiple of 500 maunds rejecting any remainder of less than 500 maunds. In the case of steamers, the maundage determined as above shall be reduced by one-third as an allowance for engine space.

For vessels of Class II which are furnished with reliable way-bills the gross maundage of cargo shown by the way-bills may at the option of the employer of the vessel be taken as the maundage on which toll will be charged. Provided that firms or individuals who wish to make use of this rule, must be approved by the Superintending Engineer of the South-Western Circle, and that such approval may be withdrawn for any just cause.

3. Every vessel entering the canals shall be furnished with a ticket on which the name of the serang, manjee or other person in charge of the vessel, the date of entry, the maundage of the vessel, the cargo it contains, the amount of toll charged, and the number of days for which the ticket remains current, shall be entered.

4. All tolls are payable on demand and shall be paid at the toll station before a vessel is permitted to proceed. Provided that the Collector of Tolls appointed under section VIII of the Act may at his discretion permit vessels belonging to individuals or firms of recognised standing to proceed without pre-payment, on an undertaking that the bills for tollage due shall be liquidated monthly on presentation.

5. The ticket must be kept on board the vessel and must be produced for inspection when demanded by any person authorised to collect tolls, or by any officer to whom such person is subordinate. If on demand the ticket is not produced, such person or officer shall assess the tollage as provided in rule 2 and shall require payment of toll, and unless and until the toll is paid, or the original ticket or a duplicate is produced as evidence that toll has already been paid, the vessel shall be liable to seizure and detention under the provisions of section IX of the Act.

6. Duplicates of lost tickets, of which the numbers and dates can be satisfactorily established, will be granted by the Collector of Tolls on payment of a sum of one rupee. Provided that for tickets on which the total tollage is less than four rupees, the fee to be charged for a duplicate shall be one quarter of the total tollage.

7. A vessel which has been detained under these rules or under section IX of the Act, may not be removed from the canal without the order of the Collector of Tolls until the toll due has been paid. During such detention the manjee, owner, or agent must make arrangements for the safety of the vessel and cargo.

8. All vessels, whether the property of Government or of private owners, are liable for toll except those exempted by the provisions of Bengal Government Notification No. 261, dated the 21st July 1890.

9. Vessels may be hauled up for repairs on the banks of the canals with the previous written permission of the Supervisor appointed by the Lieutenant-Governor, under section XIII. A rent calculated at one-sixth the rate of ordinary demurrage will be charged for the time the vessel occupies the bank.

10. At places where mooring posts have been provided by the Supervisor, vessels desiring to moor shall be made fast in single line along the banks to such posts in such manner as the Supervisor may direct and shall not be moored in any other manner.

11. The Supervisor may by written notice to be posted at the Toll Offices, prohibit the dropping of anchors or the putting up of bamboos or *luggees* in any specified part of the Canals or on the banks.

12. Boats shall be allowed to make fast in single line along the canal banks in such manner as may be directed by the Supervisor, and no boat shall be made fast or be placed outside of boats so secured. No boat or raft shall be placed in such a position as to endanger the safety, or obstruct the passage, of other boats.

13. Boats passing through the canals shall keep in separate lines, empty boats keeping close to the bank and those that are laden in the centre.

14. In portions of the canals where only one towing path exists, vessels shall moor on the side opposite to the towing path, and the towing path side shall always be kept clear.

15. Iron built cargo boats, with outside angle irons projecting beyond the wooden fenders, will not be allowed to enter the locks unless permanent fenders are fixed over the deges of the angle iron so as to prevent them from causing damage to the lock.

16. No fire, or open or unprotected light of any description, shall be used on boats containing petroleum, jute, hay or straw while in the Calcutta Canals; and no fire or open or unprotected light (except in the case of steamers, the galley and engine-room fires and the electric light) shall be used on any vessel while in a lock basin.

17. No person shall wilfully or negligently allow a vessel to sink in the canals.

18. In every case of a sunken vessel whether due to negligence or otherwise, the Supervisor and his subordinates shall offer every assistance in removing the same.

If three days after the occurrence of a wreck, it is seen that prompt measures are not being taken by the owner to remove the sunken vessel from the line of navigation, the Supervisor and his subordinates shall make their own arrangements for the removal of the same at the expense of the owner.

19. When a sunken vessel has been recovered, the Supervisor shall cause notices to be posted at the locks, toll-offices, or other prominent places, calling on those concerned to pay to the Collector of Tolls all toll or demurrage which may be due, as well as the expenses incurred in the recovery of the vessel and cargo. Should the sum due be not paid within fifteen days of the date of notice, the boat and its furniture, or so much of it as may be necessary for the recovery of the dues, will be sold, under the procedure directed in section IX of the Act.

20. The purchaser of a vessel sold under the provisions of section IX of the Act shall have the right to take it out of the canal on the day of purchase, or within such time as may be allowed by the Collector of Tolls, without payment of tolls.

21. When any laden vessel which has sunk, has been recovered; or, when any laden vessel has been seized under the provisions of the Act, or of these rules, the Supervisor shall give immediate notice of the recovery or seizure to the owner of the cargo or his agent, requiring the removal of the cargo without delay, and informing him that he will be required to pay all expenses necessary for the proper custody and storage of the cargo until removed.

22. If the Supervisor be unable to ascertain the name and place of business or the abode of the owner of the cargo of such vessel, the notice prescribed in Rule 21 shall be effected by a notice exhibited in his office, and by advertisement in at least one English and one vernacular Calcutta newspaper.

23. Steamers are not allowed to tow flats or cargo boats in the Circular Canal, but may tow one flat or barge at a time astern in the New Cut Canal.

24. *Lights and signals.*—All vessels, whether travelling or moored in the Calcutta Canals or Tolly's Nala, must, between sunset and sunrise, carry a white light in a lantern on the fore-part of the vessel where it can be distinctly seen from all sides. All steam vessels in motion shall carry the lights prescribed by the Board of Trade Regulations. Barges or boats attached to a steam vessel, whether in motion or moored, shall carry the light prescribed above.

25. *Speed of vessels.*—Every vessel proceeding through the Calcutta Canals and Tolly's Nala must, between sunset and sunrise, limit her speed to three miles per hour.

26. For any contravention of Rules 7, 11, 12, 13, 14, 16, 17, 23, 24, and 25 the person in charge of the vessel or other person in fault shall, on conviction before a Magistrate, be liable to a fine not exceeding Rs. 50 or Rs. 5 a day for any continuing infringement.

27. No boats will be allowed to remain between the Dwarf walls of the entrance channels to the Dhappa and Chitpur Locks.

Approximate position, So Wolmi, lat. 37° 27¾′ N., long. 126° 35¾′ E.

This Notice affects the following Admiralty Chart:—Approaches to Chemulpho anchorage, No. 1970: Also, List of Lights, part VI, 1904, Nos. 829, 828, 827, 826; and Sailing Directions for Japan, Korea, &c., 1904, pages 57, 58, 59.

During the erection of the beacon a barge and a pile driver, from which a *white fixed light* will be exhibited, will be moored in the position.

The exact position of the above beacon is not given.

No soundings appear to have been taken.

The Government of Tasmania has also given Notice, dated 31st December 1903, that five Masters of Ships have reported that a rock exists in this vicinity, but as the positions given by them differ, about 4 miles both in latitude and longitude, it is quite impossible to place it on the Charts with any degree of accuracy. Thick weather prevailed at the time, so that no bearings were obtained, and the position, depending on the reckoning, must be considered doubtful.

It must also be considered doubtful whether what was seen was a breaker over a danger, or merely an overfall caused by a tide rip over part of the foul ground.

RESOLUTION ON THE HOWRAH BRIDGE BUDGET ESTIMATE FOR THE YEAR 1904-1905.

No. 676 Marine.

Government of Bengal.

MARINE DEPARTMENT

Dated Calcutta, the 14th April 1904.

RESOLUTION.

Howrah Bridge Budget Estimate for the year 1904-1905.

READ—

Letter No. 7735 of the 26th March 1904, from the Vice-Chairman of the Commissioners of the Port of Calcutta, forwarding the Budget Estimate of the Howrah Bridge for the year 1904-1905.

RECEIPTS.

The total receipts for 1904-1905 have been estimated at Rs. 1,64,125, against Rs. 1,70,750 of the previous year, showing a decrease of Rs. 6,625. The decrease is chiefly due to a reduction on account of interest owing to Rs. 3¼ lakhs having been withdrawn from the Reserve Fund for the purchase of two

new ferry boats. The receipts from Railway Traffic have been estimated at almost the same sum as last year. Although the total receipts are less than those of the year 1903-1904, the financial position of the fund has been improved, as the estimated deficit will be only Rs. 8,500, against the deficit of Rs. 28,250 of the preceding year.

EXPENDITURE.

2. The expenditure has been estimated at Rs. 1,72,625, against Rs. 1,99,000 for the year 1903-1904, showing a decrease of Rs. 26,375. The largest item of decrease in the expenditure is under the head "Miscellaneous," under which head a sum of Rs. 54,000 was provided for in the Budget last year for the hire of steamers for conducting the ferry service. During the year under review no such provision is necessary.

3. As compared with the receipts that have been estimated for (Rs. 1,64,125), there will be a deficit of Rs. 8,500, and this amount will be met from the Reserve Fund of the Bridge.

4. The Lieutenant-Governor sanctions the estimate under section 21 of Act IX (B. C.) of 1871.

By order of the Lieutenant-Governor of Bengal,

D. B. HORN,

Secy. to the Govt. of Bengal.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE MONTH OF MARCH 1904.

PRESSURE was slightly below normal on the 1st of the month over the province, while temperature was in general excess, and fine calm weather with westerly winds prevailed. During the first three days of the month pressure fell steadily but slowly. A small disturbance was apparently affecting the weather during this time and was accompanied by a slight fall in day temperatures. On the 4th pressure began to rise, and though the rise was slightly checked on the 5th and 6th it continued with greater rapidity on the 7th and 8th, the pressure on the latter date being in moderate excess throughout. On the latter date a sharp fall set in which continued till the 10th. During the whole of this period the area of lowest pressure lay over the north of Bengal, and owing to the irregular and somewhat cyclonic circulation of winds to which it gave rise, the weather was feebly disturbed and numerous thunderstorms were experienced over the province. Though temperature varied irregularly during this disturbed period, mean temperature remained generally in excess chiefly owing to abnormally high night temperatures. From the 11th to the 15th only slight oscillations of pressure took place, but the distribution changed its character and seemed to indicate the passing of a feeble disturbance from the province into the bay. Owing to the variable direction of the winds, the weather continued somewhat unsettled and showery over the province. On the 15th, however, the distribution had reverted again to the ordinary hot-weather character and weather was generally fine. With the dry north winds which accompanied the passage of the area of low pressure southwards on the 11th, a sharp fall of temperature set in, and although with the reversion of winds to the south on the 15th a reaction set in, mean temperature remained below normal up to the 16th of March. Pressure continued to oscillate steadily and uniformly between comparatively small limits during the remainder of the month, the period of a complete oscillation never exceeding four days. The deviation from the normal was consequently never very great, and as the motion was slow, the character of the weather was very settled till the end of the month. The extent and period of the oscillations will be indicated by stating that pressure which was below normal on the 16th fell on that date, rose on the 17th and 18th, was steady on the 19th, rose on the 20th and 21st, fell on the 22nd, was steady on the 23rd, rose on the 24th, was steady on the 25th, fell on the 26th and 27th, rose on the 28th and remained nearly steady during the last three days of the month, when it was almost normal. The distribution of pressure was practically that of the hot weather and remained unchanged during this period, with highest pressure in the south and the lowest over the province. Winds blew steadily from the south-west over the southern half of the province and were generally light. Only on the 24th, 25th and 26th was there a deviation from this steady direction of the winds owing to the formation of a diffused depression over Bengal. With the setting in of the southerly winds on the 16th temperature began steadily to rise. It oscillated slightly between the 19th and 23rd, but with this exception temperature remained above the normal with a general upward tendency till the end of the month. On the 31st of March mean temperature was everywhere in excess, the excess amounting to as much as 7° at Malda.

General Summary of Weather.—During the first-half of the month weather was feebly unsettled, small and shallow areas of depression passing over Bengal in different directions during that period. The distribution of pressure was undergoing a change from the 1st to the 15th, and the change was naturally accompanied by irregular winds and the usual concomitant thundershowers. During the latter-half of the month, on the other hand, the circulation of winds was steady and of the usual hot-weather character. As, moreover, the gradient at the head of the Bay was not sufficiently strong to produce a strong indraught of wind, and as, moreover, the distribution was such that the winds were from the south-west and not from the south-east, and consequently not surcharged with moisture, the conditions for the usual nor'wester thunderstorms, which are prevalent at a slightly later period, were wanting, and the weather during the latter half of the month was fine and settled.

Summary of Pressure.—Pressure during the whole of the month was characterised by uniform "surges." This was especially the case during the latterhalf of the month, but even during the first half, although slight local depressions existed, they were exceedingly shallow and consequently did not markedly affect the general rise and fall of the barometer common to the whole area. As the amplitudes of the various oscillations on each side of the mean were fairly equal, the average pressure of the month differed from the normal nowhere to any great extent, with the result that there was a very slight and almost uniform defect of mean pressure below the normal over the whole of Bengal.

Summary of Temperature.—As will be seen from the account of the weather from day to day, temperature was very seldom below the normal, the general tendency being upward except for the periods from the 11th to the 15th and from the 19th to the 23rd of the month. Mean temperature is consequently above the average for the month except in Chota Nagpur. The greatest excess was in East Bengal and the least in South-West Bengal. The maximum excess was 2·7° at Faridpur. Mean maximum was likewise above normal over almost the whole province, the exception being again Chota Nagpur and a small part of

South Bihar. In the case of mean minimum temperature the deviation from the normal is more irregular and likewise generally of less amount, the greatest excess being 2° at Noakhali and the greatest defect 2°·7 at Hazaribagh.

Summary of Rainfall.—Rainfall was on the whole scanty during the month except in Chota Nagpur. The chief rainfall occurred during the distribution period at the beginning of the month. Chota Nagpur was the first area to come under the influence of the unsettled weather, slight showers having been received there as early as the 1st, but general rain did not commence in that quarter till the 3rd, on which date Bihar also came within the influence of the disturbance. The unsettled weather then gradually extended eastwards, its effects being felt as late as the 19th in East Bengal. Slight showers were also received in Orissa and Ranchi between the 23rd and 25th. Taking the whole month, East and North Bengal received considerably below their normal amounts, while in South-West Bengal the rainfall was practically average. In Orissa and Bihar the defects were slight.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the Province for the month of March 1904:—

The mean pressure, temperature, etc., are deduced from the traces of the Barograph and Thermograph, and from eye-observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. Rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

No. 20.—Notification.—It is hereby notified for general information that the Lieutenant-Governor of Bengal proposes, under the provisions of sections XI and XII of Act V (B.C.) of 1864, to pass the following rules in modification of those now in force on the Calcutta Canals and Tolly's Nala with effect from 1st July 1904.

D. B. HORN,
Secy. to the Govt. of Bengal.

Revised Rules for the Calcutta Canals and Tolly's Nala.

The rules shall apply to the following navigable channels which are included under the designation "Calcutta Canals and Tolly's Nala":—

I.—The Circular Canal comprising the still-water canal between the Dhappa and Chitpur Locks and the New Cut Canal from Ultadingi to Dhappa Lock, together with its junction with the river Hooghly and the Orange Soorah at Dhappa.

II.—The Central Lake Channel from its junction with the Circular Canal at the Dhappa Lock to its junction with the Biddiadharee at Bamunghatta.

III.—The Nowbhanga khal, extending northwards for a mile from its junction with the Central Lake Channel below the Dhappa Lock.

IV.—The Seorah from its junction with the Central Lake Channel below the Dhappa Lock and extending to the fish market situated adjacent to, and to the west of, the Dhappa Inspector's residence.

V.—Tolly's Nala extending from a line drawn across the Nala 25 feet west of the Hastings Bridge at Kidderpore to the Biddiadharee river at Samookpota.

1. Every vessel on entering the Calcutta Canals or Tolly's Nala shall be liable to measurement for the purpose of ascertaining the tolls payable; in case of any reasonable doubt arising, the persons appointed by the Lieutenant-Governor to collect tolls and officers to whom such persons are subordinate shall have authority to again measure a vessel notwithstanding that it was measured on entering the canals.

2. Vessels for the purposes of the determination of tonnage shall be divided into two classes as below:—

Class I.—To include all vessels of the usual native types of build.

Class II.—To include all steamers, flats and barges, and other square built boats.

The net tonnage of every vessel, whether laden or empty, shall, for the purposes of Act V (B.C.) of 1864 and of these rules, be determined by the following measurements:—

Class I.—

A.—The product of one quarter the length of the vessel from stem to stern, measured along the water-line, multiplied by the interior greatest breadth of the vessel multiplied by the depth from the water-line to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which toll shall be levied.

B.—The measurement of the length is to be made in feet, rejecting inches; the measurement of the breadth and depth is to be made in feet and quarters of a foot, rejecting any remainder of less than a quarter of a foot.

C.—The maundage on which the amount of toll is calculated shall be reckoned to the nearest integral multiple of 12½ maunds, any remainder of less than 12½ maunds being rejected. In the case of boats exceeding 500 maunds by measurement, the maundage shall be reckoned to the nearest integral multiple of 50 maunds rejecting any remainder of less than 50 maunds.

D.—Provided that in the case of vessels which enter the canals at Chitpore, Kidderpore and Chetla empty, for the purpose of loading therein, the depth shall be measured from the line of usual immersion when fully loaded as visible on the outside of the vessel to the bottom (interior) of the vessel, and not from the line of actual immersion at the time of measurement.

Class II.—

For vessels of Class II the number of maunds obtained by the system of measurement prescribed for vessels of Class I, shall be increased by one-half. For vessels of this class above 5,000 maunds measurement the maundage shall be reckoned to the nearest integral multiple of 500 maunds rejecting any remainder of less than 500 maunds. In the case of steamers, the maundage determined as above shall be reduced by one-third as an allowance for engine space.

For vessels of Class II which are furnished with reliable way-bills the gross maundage of cargo shown by the way-bills may at the option of the employer of the vessel be taken as the maundage on which toll will be charged. Provided that firms or individuals who wish to make use of this rule, must be approved by the Superintending Engineer of the South-Western Circle, and that such approval may be withdrawn for any just cause.

3. Every vessel entering the canals shall be furnished with a ticket on which the name of the serang, manjee or other person in charge of the vessel, the date of entry, the maundage of the vessel, the cargo it contains, the amount of toll charged, and the number of days for which the ticket remains current, shall be entered.

4. All tolls are payable on demand and shall be paid at the toll station before a vessel is permitted to proceed. Provided that the Collector of Tolls appointed under section VIII of the Act may at his discretion permit vessels belonging to individuals or firms of recognised standing to proceed without pre-payment, on an undertaking that the bills for tollage due shall be liquidated monthly on presentation.

5. The ticket must be kept on board the vessel and must be produced for inspection when demanded by any person authorised to collect tolls, or by any officer to whom such person is subordinate. If on demand the ticket is not produced, such person or officer shall assess the tollage as provided in rule 2 and shall require payment of toll, and unless and until the toll is paid, or the original ticket or a duplicate is produced as evidence that toll has already been paid, the vessel shall be liable to seizure and detention under the provisions of section IX of the Act.

6. Duplicates of lost tickets, of which the numbers and dates can be satisfactorily established, will be granted by the Collector of Tolls on payment of a sum of one rupee. Provided that for tickets on which the total tollage is less than four rupees, the fee to be charged for a duplicate shall be one quarter of the total tollage.

7. A vessel which has been detained under these rules or under section IX of the Act, may not be removed from the canal without the order of the Collector of Tolls until the toll due has been paid. During such detention the manjee, owner, or agent must make arrangements for the safety of the vessel and cargo.

8. All vessels, whether the property of Government or of private owners, are liable for toll except those exempted by the provisions of Bengal Government Notification No. 261, dated the 21st July 1890.

9. Vessels may be hauled up for repairs on the banks of the canals with the previous written permission of the Supervisor appointed by the Lieutenant-Governor, under section XIII. A rent calculated at one-sixth the rate of ordinary demurrage will be charged for the time the vessel occupies the bank.

10. At places where mooring posts have been provided by the Supervisor, vessels desiring to moor shall be made fast in single line along the banks to such posts in such manner as the Supervisor may direct and shall not be moored in any other manner.

11. The Supervisor may by written notice to be posted at the Toll Offices, prohibit the dropping of anchors or the putting up of bamboos or *luggees* in any specified part of the Canals or on the banks.

12. Boats shall be allowed to make fast in single line along the canal banks in such manner as may be directed by the Supervisor, and no boat shall be made fast or be placed outside of boats so secured. No boat or raft shall be placed in such a position as to endanger the safety, or obstruct the passage, of other boats.

13. Boats passing through the canals shall keep in separate lines, empty boats keeping close to the bank and those that are laden in the centre.

14 In portions of the canals where only one towing path exists, vessels shall moor on the side opposite to the towing path, and the towing path side shall always be kept clear.

15. Iron built cargo boats, with outside angle irons projecting beyond the wooden fenders, will not be allowed to enter the locks unless permanent fenders are fixed over the deges of the angle iron so as to prevent them from causing damage to the lock.

16. No fire, or open or unprotected light of any description, shall be used on boats containing petroleum, jute, hay or straw while in the Calcutta Canals or Tolly's Nala; and no fire or open or unprotected light (except in the case of steamers, the galley and engine-room fires and the electric light) shall be used on any vessel while in a lock basin.

17. No person shall wilfully or negligently allow a vessel to sink in the canals.

18 In every case of a sunken vessel whether due to negligence or otherwise, the Supervisor and his subordinates shall offer every assistance in removing the same.

If three days after the occurrence of a wreck, it is seen that prompt measures are not being taken by the owner to remove the sunken vessel from the line of navigation, the Supervisor and his subordinates shall make their own arrangements for the removal of the same at the expense of the owner.

19. When a sunken vessel has been recovered, the Supervisor shall cause notices to be posted at the locks, toll-offices, or other prominent places, calling on those concerned to pay to the Collector of Tolls all toll or demurrage which may be due, as well as the expenses incurred in the recovery of the vessel and cargo. Should the sum due be not paid within fifteen days of the date of notice, the boat and its furniture, or so much of it as may be necessary for the recovery of the dues, will be sold, under the procedure directed in section IX of the Act.

20. The purchaser of a vessel sold under the provisions of section IX of the Act shall have the right to take it out of the canal on the day of purchase, or within such time as may be allowed by the Collector of Tolls, without payment of tolls.

21. When any laden vessel which has sunk, has been recovered; or, when any laden vessel has been seized under the provisions of the Act, or of these rules, the Supervisor shall give immediate notice of the recovery or seizure to the owner of the cargo or his agent, requiring the removal of the cargo without delay, and informing him that he will be required to pay all expenses necessary for the proper custody and storage of the cargo until removed.

22. If the Supervisor be unable to ascertain the name and place of business or the abode of the owner of the cargo of such vessel, the notice prescribed in Rule 21 shall be effected by a notice exhibited in his office, and by advertisement in at least one English and one vernacular Calcutta newspaper.

23. Steamers are not allowed to tow flats or cargo boats in the Circular Canal, but may tow one flat or barge at a time astern in the New Cut Canal.

24. *Lights and signals.*—All vessels, whether travelling or moored in the Calcutta Canals or Tolly's Nala, must, between sunset and sunrise, carry a white light in a lantern on the fore-part of the vessel where it can be distinctly seen from all sides. All steam vessels in motion shall carry the lights prescribed by the Board of Trade Regulations. Barges or boats attached to a steam vessel, whether in motion or moored, shall carry the light prescribed above.

25. *Speed of vessels.*—Every vessel proceeding through the Calcutta Canals and Tolly's Nala must, between sunset and sunrise, limit her speed to three miles per hour.

26. For any contravention of Rules 7, 11, 12, 13, 14, 16, 17, 23, 24, and 25 the person in charge of the vessel or other person in fault shall, on conviction before a Magistrate, be liable to a fine not exceeding Rs. 50 or Rs. 5 a day for any continuing infringement.

27. No boats will be allowed to remain between the Dwarf walls of the entrance channels to the Dhappa and Chitpur Locks.

S. *Wakatipu* reports that when steering to the southward on 24th October 1903, after passing to the eastward of Deal island and just before Pyramid rock was sighted, his vessel, drawing 18 feet, bumped sharply on a sunken obstruction at 4-30 A.M., but no danger could be seen in any direction. No soundings appear to have been taken.

The Government of Tasmania has also given Notice, dated 31st December 1903, that five Masters of Ships have reported that a rock exists in this vicinity, but as the positions given by them differ, about 4 miles both in latitude and longitude, it is quite impossible to place it on the Charts with any degree of accuracy. "Rock reported hereabouts 1903" has, therefore, been inserted on the Charts at a distance of about 7 miles north-eastward of Pyramid rock. Vessels are recommended to avoid this locality until it has been examined.

Approximate position, Pyramid rock, lat. 39° 49′ S., long. 147° 15′ E.

NOTIFICATION.

No. 176T.G.—The 19th April 1904.—The following is published for general information.

A. EARLE,
Secy. to the Govt. of Bengal.

Extract from a letter from A. EARLE, ESQ., I.C.S., *Secretary to the Government of Bengal, General Department, to the Director of Public Instruction, Bengal, No. 174T.G., dated Darjeeling, the 19th April 1904.*

I AM directed to acknowledge the receipt of your letter No. 4072, dated the 25th March 1904, in which you report that, in order to perpetuate the memory of Mr. B. De, late Magistrate and Collector of Balasore, some of the leading gentlemen of Balasore have offered to invest the sum of Rs. 1,100 in 3½ per cent. Government securities for the creation of a Trust Fund to be called the "B. De Fund," the interest of which will be spent in awarding a scholarship of Rs. 4 a month, tenable for three years at the Balasore Zilla School, to the student attending any of the schools of that district, who stands first in the examination for Middle English Scholarships.

2. In reply, I am to say that Government is pleased to accept the offer, and desires that its thanks may be conveyed to the "B. De Memorial Committee" for their liberality.

APPOINTMENT OF A COMMITTEE TO REPORT ON THE WORKING OF THE EXISTING SEPTIC TANK INSTALLATIONS IN BENGAL.

MUNICIPAL DEPARTMENT—MUNICIPAL.

Darjeeling, the 20th April 1904.

RESOLUTION—No. 236T.—M.

READ—

Letter to the Government of India, Home Department, No. 867T.—M., dated 29th May 1903.

Letter from the Sanitary Commissioner, Bengal, No. 3216D., dated the 14th October 1903.

Memorial from certain inhabitants of Rishra, etc., in the Serampore Municipality, dated the 18th January 1904, complaining of the pollution of the river Hooghly by the effluent from septic tanks.

Letter No. 62M., dated 25th January 1904, from the Commissioner of the Burdwan Division.

Questions and answers at the meeting of the Bengal Legislative Council of 2nd February 1904, on the subject of septic tanks.

Letter to the Sanitary Board, No. 721M., dated 9th February 1904.

Letter No. 306S.B., dated 22nd March 1904, from the Secretary to the Sanitary Board, with enclosures.

In the letter to the Government of India cited above it was stated that the Lieutenant-Governor, after reviewing all the evidence before him, entertained no doubt that the conversion of crude sewage into an odourless and non-putrescible fluid can be accomplished under proper conditions, and that this is a most valuable and useful result. It was noted, however, that further experiments were necessary to determine the amount of work which could be done by a septic tank under different conditions, the quantities of water required, the efficacy of the effluent as liquid manure and other details. His Honour therefore determined to proceed further with the experiments, and accorded sanction to the construction of a septic tank by the Muzaffarpur Municipality.

2. Meanwhile the increase in the number of septic tanks in the mills on the banks of the Hooghly, which has been very rapid, has rendered it necessary that the conditions on which such installations can be permitted shall be determined without delay. That the system when successfully worked constitutes a great advance in the application of scientific sanitary methods the Lieutenant-Governor has no doubt. Unfortunately this result has not yet been fully attained; and objections, to some extent well founded, have been raised to the discharge of the filtrate or effluent into the river. It is a matter of urgent necessity, therefore, that a speedy solution of the problem should be arrived at, in order on the one hand that the large expenditure incurred by the mill-owners may not be thrown away, and on the other that the objections referred to may as far as possible be removed.

3. The question is also of more than local importance; for if these installations can be made to perform all that has been claimed for them, they will no doubt be adopted in all the large Municipalities in the Province, and will remove what has hitherto been one of the greatest difficulties of municipal administration. For this reason also Sir Andrew Fraser has given the whole subject his most careful consideration.

4. The Sanitary Board, who were consulted, have represented that they are unable to advise until orders are passed on the following points raised by the Committee of the Jute Mills Association, viz.—

(1) What is the distance above and below Palta and Serampore within which the discharge of the filtrates from septic tank installations without further treatment will not be permitted?

(2) Will Government be satisfied if the filtrates are passed through sand before being passed into the Hooghly?

(3) What is the standard of purity on which Government will insist?

5. In order that the questions referred by the Sanitary Board may be fully enquired into, and also in order that the best methods of dealing with the whole problem may be ascertained, His Honour has been pleased to appoint the following Committee to report on the working of the existing septic tank installations in Bengal, and on the means which should be adopted to render the system efficient and free from objection :—

Colonel S. H. Browne, C.I.E.	*President.*
The Hon'ble Mr. D. B. Horn	*Members.*
Major F. C. Clarkson, I.M.S.	
The Hon'ble Mr. L. P. Shirres, I.C.S., Secretary to the Government of Bengal in the Municipal Department	*Secretary.*

6. In addition to dealing with the three specific questions set forth above, it will be the duty of the Committee in the first instance to ascertain the actual facts as to the existing installations. In this connection they will have to consider carefully the construction and situation of the structures, and the character, chemical and otherwise, of the effluent which is discharged. It will also be their duty to examine the different methods by which the effluent can be disposed of. Three methods are referred to by the Sanitary Board, namely, (*a*) by turning the filtrates over land, (*b*) by using them as feed water for the boilers, and (*c*) by discharge into the river after filtration through sand. The second of these ways, which is said to be in use in America, would if it could be adopted apparently solve the problem in the case of the Hooghly Mills. If discharge into the river is permitted, the Committee should report the conditions which they consider necessary in order that this may be done without detriment to the public health. Lastly, the Committee should advise what changes require to be made in the existing installations and in their methods of working, so that the best results may be obtained.

Estimated surplus ...	39,602

2. The estimated gross increase based on the existing schedules of rates and charges amounted to Rs. 79,21,760; but proceeding on the principle which has guided the Commissioners during the last two years that the river due on goods should be maintained at the rate of four annas per ton, and that the charges for the use of the Jetties or other similar charges should be reduced, the Port Commissioners have again resolved to make further concessions to the trade

to the extent of Rs. 1,20,000, thus reducing the estimate to Rs. 78,01,760. The reductions made are on the following heads:—

	Rs.
Harbour Master's fees for work done before and after the regular working hours	14,000
Charges for transporting vessels	36,000
Reduction in the rate of hire for the 30-ton crane	20,000
Ditto of wharfage rate on imports	50,000
Total ...	1,20,000

3. In the year 1902-1903 charges payable on goods and vessels were reduced to the extent of Rs. 1,76,000 per annum, and again on 1st April 1903 these charges were further reduced by Rs. 2,28,000, and now it is proposed to make further reductions to the extent of Rs. 1,20,000. An annual reduction in the income of the Commissioners, amounting to Rs. 5,24,000, is caused by these measures, and the Commissioners are to be congratulated on their ability to make this large concession and still be able to keep the Trust property in a satisfactory condition.

The expenditure is estimated at Rs. 51,09,497, showing an increase of Rs. 88,905 on the figures of the preceding year. An abstract comparing the estimates of the two years is given below:—

	1904-05.	1903-04.
	Rs.	Rs.
Establishment	20,80,689	19,70,599
Stores	3,71,575	3,57,623
Maintenance and repairs	7,08,045	8,10,365
Labour	12,49,930	11,55,060
Miscellaneous	6,63,061	6,89,750
Police	61,217	61,199
Unforeseen expenditure	20,000	20,000
	51,54,517	50,64,596
Deduct chargeable to Capital account ...	45,020	44,004
Total ...	51,09,497	50,20,592

4. It is satisfactory to notice the large decrease under "Maintenance and Repairs," but, on the other hand, the saving is more than counterbalanced by an increase under "Establishment." This is an item of expenditure which needs to be closely watched. An examination of the schedule shows that in some cases the status of existing appointments has been raised. As the limit of salary of each appointment over Rs. 500 a month requires the sanction of Government, no increase should be allowed in excess of this limit without such sanction. Increments within the maximum pay of the appointment should not be given before due date without the previous sanction of Government.

CAPITAL.

5. The capital budget provides for an expenditure of Rs. 36,92,563 on new works and of Rs. 4,28,000 on renewals of vessels and a timber jetty, making a total of Rs. 41,20,963. The greater part of the expenditure on new works will be spent on works already sanctioned by Government. It is proposed to obtain the funds for capital expenditure by a debenture loan, an application for which will be made later in the year.

6. In pursuance of the powers vested in him by section 71 of the Calcutta Port Act, 1890, the Lieutenant-Governor approves of the estimate of the income and expenditure of the Commissioners for the year 1904-1905.

By order of the Lieutenant-Governor of Bengal,

D. B. HORN,

Secretary to the Govt. of Bengal.
